SPECIFICATIONS

Overview

The PAMA 540LX Pilothouse has received great reviews for quality, functional innovations, impressive standard, with elegant interior. The design has been carefully refined in order to gain the most possible space from this pilothouse yacht.

Pama's construction is of sturdy solid glass on the bottom with the first three layers being vinylester resin. Her stringer system is bordering on excessive. Everything above the waterline is cored with Nidacore honeycomb material, which is extremely strong and lightweight. This coring is "vacuum bagged" to the hull laminate for increased strength. The stringers are capped with stainless supports.

The salon floor has is created with three layers of Nidacore and four layers of fiberglass. This reduces sound levels significantly in the salon while underway. This also gives a solid feel.

The engine room is finished from ceiling to bottom. The rest of the interior decks are made up of a Nidacore honeycomb/FRP sandwich. Many builders apply plywood for interior decks.

Extreme care is taken with every Pama Yacht to ensure that the owners will enjoy many years of exceptional cruising surrounded by the best quality construction, furnishings and hardware available. Pama's construction, features, attention to detail and artistic approach to boat building will most certainly be "Setting New Standards".

Volvo D12 Northern Lights M843NK 12kW genset with soundshield and only 632 hours, Wesmar RS400 fin stabilizers, Sidepower SP155TC 24v hp electric bow thruster, Xantrex Prosine 3kW inverter system, Phase Three PT--70A three stage smart battery charger, Updated Interstate battery system, AquaAir TW2D 48,000 BTU air conditioning/heat climate system with Tempwise2001 digital thermostats, Raymarine full navigation system, Seatel 24" satellite TV antenna system, Heated towel rack in both heads, Nutone central vac system with hose and accessories, Danby separate washer/dryer, ZF Mathers port/starboard cockpit remote control, Strong dripless shaft seals, CQR 60lb stainless steel anchor, 300' of 5/16" chain, Maxwell 2200 windlass, Glendinning 50amp cable master with remotes, Nick Jackson 1,000 yacht crane and Novurania 335DL center console tender with Yamaha 25hp 4 stroke outboard.
