## Overview

---

This really well cared for **Owner's Version** Lagoon 420 stands tall among the others on the market. Her original Yanmar Diesels have only 1800 hrs, and she is not one of the retrofitted electric 420's. Consequently she is not slowed down by hauling around a huge genset. Instead she is fit with 1000w of solar and a smart cruising electrical system. With electric winches, water maker, stainless steel ground tackle, custom tables and cushions, and a super spacious layout, she is a great choice for a safe and comfortable family cruising catamaran.
