- Lightning protection with hull Dyna plate and mast probe
- Reading lights: All staterooms have 11 0V receptacles for table lamps, except captain, engineer and crew quarters have 24V lights
- 11 0V AC Halogen recessed light fixtures
- 24V DC & 110V AC rope indirect rope lighting
- ACR-RCL 100 Searchlight located on mast with single control
- Shore Power: (2) 100 amp, three-phase shore feeds; (1) via a 100 amp receptacle with 100', 100 amp loose cord; (1) via 1 00 amp, 1 00' Glendenning Cable master cord reel (both located in starboard bustle); Standalone back-up transformer 100 amp single phase with cord: TV and phone connection located at Glendenning with (1) 100' TV /phone cord
- 100 Amp, 50-60 cycle shore power converters (180 to 500 VAC input)
- 24V DC Shower lights with white trim
- Main Distribution Panel located in control room
- Vimar receptacles and switching throughout

Flybridge

- Wet Bar: Solid surface top, sink, hot & cold water, TV/phone jacks, icemaker, refrigerator, BBQ electric grill and BBQ stainless steel cover with (3) swing-out stools
- Welded aluminum mast with electronics, anchor light, deck lighting and air horn
- Pioneer AM/FM CD player with (2) pairs of SpeakerCraft speakers
- Flybridge Steering Station
- Swing-out stool at Captain's station
- Custom Venturi windshield in stainless steel
- Sun pad with cushions
- Molded-in settee with cushions, covers, (2) tables and (2) Sunshade umbrellas with covers
- Kahlenburg Air Horn
- Teak decks added over standard
- Custom mast for larger domes
- Custom mast light

Boat Deck

- Hot tub with heater
- Molded-in settee with cushions, cover and locker space under
- Custom Corian table
- Forward Portuguese settee: (2) molded seats with cushions and covers
- Chocks: for life raft and (1) for tender
- Nautical Structures tender lifting bridle
- Nautical Structures davit CEZ-2000-EX with extended, full hydraulic & telescoping boom

- Wing Stations: (2) just outside Pilothouse, port and starboard; stations include electronic engine controls with synchronizer, engines starts and stops, jog lever, bow thruster control and rudder angle indicator
- Volume control and speakers from main system
- Optional teak deck on Boat Deck
- Customized stem flagstaff
- Stainless steel staples on Flybridge & Transom
- Extra crossbar for safety & cosmetic reasons

Fore Deck

- Bow sun lounge with cushions, covers and enclosed storage locker under
- Keyhole Seat includes settee with cushions and covers
- Volume control and speakers from main system

Mechanical Equipment

- (2) MTU/DDC 12V4000 engines at 2735hp with three station controls, integrated station selection and shifter control and synchronizer, plus additional aft station control-Port 3842; Starboard 3842
- (2) 65kW 1800 RPM Northern Lights generators with hydro-elastic mounts and secondary Barry control mounts, sound shields, water lift mufflers, exhaust water separator and water temp, oil pressure & hour meters installed in distribution panel (both gens have remote start/stop in Pilothouse)-Port 12,037; Stbd 10,823
- 220V 2hp Air Compressor with In line separator and regulator
- 16" Wesmar bow thruster, 50hp dual prop hydraulic with three-station controls
- Fuel fills port and starboard with vent pipes vented overboard for fast filling
- Fuel tanks: 1/4" minimum 5086 alloy aluminum with dual fills and standard vents {approx. capacity 9,900 gallons}
- Gas tank: 100-gallon gas tank in area of swim platform (includes dispensing pump & hose)
- (2) Detroit provided SeaPro fuel filters for each main engine and (1) SeaPro 2005-MK for each generator {an Alfa Laval #303 fuel separator is also included}
- Fuel Gauges: Sight tubes located in control room (VIC monitoring system)
- Fuel transfer pump with a flow meter and timer
- Lube Oil Change System: 78-Gallon lube oil tank with deck fill and fill spigot, 3 gallon tube oil waste tank with drain spigot and portable extraction pump with quick disconnects on pump and all engines
- Rudders: 10 Sq. Ft. cast urethane foil shape rudders with 4" Aquamet 22-H.S. stocks
- Rudder Bearings/Seals: Tides dripless packing boxes with spare seals (steady rest bearing in aluminum framework)
- 5-Blade Michigan custom wheels propellers
- Aquamet 22-H.S. 4" shafts
- Shaft lots are on-piece fiberglass construction with Tides dripless packing gland

with spare seals

- Naiad Stabilizing System #420 model with 12 sq. ft. finds, one station MultiSea 2000 control, with oil level warning, unloading valve kits and dual pumps with gauge kits
- (3) Exalto stainless steel pantograph wipers with delay circuits and fresh water wash downs
- Jastrom CCO commercial grade power steering (3-Stations: Pilothouse & two wing stations with electric controls with rudder angle Indicators)
- Bilge Pumps: 12 Remote mounted, 24V electric bilge pumps with manual/automatic switches and VIC alarms on all pumps, except lower engine room pump
- Emergency Bilge Pump: Emergency fixed bilge pump system includes two electric pumps with 1 1/2" PVC lines to each major compartment with check valves, strainers and priming system
- Fire Suppression: FM200 engine room fire suppression system with manual/automatic controls (Small FM-200 in electrical distribution panel)
- Upgraded stainless steel anchors
- Upgraded 4-Mast up lights

Plumbing

- Water tanks: Aluminum with interior epoxy coating (approx. capacity of 1620 gallons, electronic monitoring system and sight tube, individual tank fills on starboard side amidship)
- (2) Sea Recovery water makers SRC 1400 (2,800 gallons per day total)
- (2) Aqua-Pure water filters
- Freshwater System: (2) 220V pumps and (2) 24V DC back-up pressure pump with pressure tank
- Hot Water Pump: (2) 120-Gallon hot water and with circulation pump
- Hot & Cold water shower in swim platform area
- Freshwater wash-down with quick disconnects on Foredeck, Boat Deck & Swim Platform
- Below Decks Gray water Systems: (3) Gray water transfer boxes fitted with screen, supply and discharge lines for all showers and sinks {except main galley}
- Holding Tanks: (2) Composite construction with inspection hatch; 240V AC diaphragm type pump with 24V DC backup pump for pump-out, Electronic Monitoring System (approx. capacity of 1,360 gallons total)
- Marine Sanitation Device (MSD): Headhunter back water treatment system

Engine Room

- Watertight exterior engine room door
- 18' self-coiling with quick disconnects in engine room
- Paint package: Bright White
- Engine Room Floor: #174 Smoke standard profile raised circular design rubber tile

Control Room

- Air conditioned engineer's control room is located forward of the engine room, includes pumps, machinery, main electrical distribution, spare parts storage, desk and sound door to engine room
- Tool box: 8-drawer painted red with tools
- Storage cabinets
- Workbench with 4" Vise
- Sink
- Flooring: Grey standard profile raised circular design rubber tile

Storage / Utility / Engineer's Cabin

- Double-wide stainless steel Traulsen commercial refrigerator !freezer
- Engineer's cabin: Custom size berth, dresser, wardrobe and head with vanity, toilet and shower located aft of engine room
- RCA TV/DVD Combo, Pioneer AM/FM CD Player and (1) pair SpeakerCraft speakers
- Lazzarettee/Dive Area with custom storage
