# DETAILED INFORMATION

---

## Introduction

---

This 68 Hatteras Convertible has a four stateroom three head arrangement. The cockpit boasts space of 192 square feet. The seating on the mezzanine level adds another 25 square feet. On the starboard side is a custom tall tackle center with a stainless steel sink and drawers. To port is a control station pod and a viewable multi function screen.

As you enter the salon thru the pneumatic sliding door to starboard is the custom spiral staircase leading to the bridge. Just forward is the electrical panels hidden behind two panel doors and the 42" plasma TV that is viewable from just about anywhere in the salon and galley. Opposite is the u-shaped sofa that you will melt into. In the corners are two custom end tables with hidden storage below.

Forward once again to the next level is the galley. Here you will find two refrigerator units and freezer, a convection microwave oven, a four burner cook top, an integrated sink, and plenty of storage for all you culinary needs. The opulent look of the cherry gloss interior is complimented by the Old Gold light weight granite countertops and raised panel cabinetry.

The 68 is equipped with a pantry on the starboard side of the companionway that houses most of the audio equipment and some essential electrical breaker panels. The port side pantry houses all the rest of the electrical panels that you may want to get at on a regular basis. There is also ample room to store more things out of harms way.

Down the companionway there is the day head that the fourth stateroom shares. The full beam master is located aft. This is paradise!! The king sized berth is flanked by two bedside night stands. There is tons of room, plenty of drawers, a well appointed desk area with computer hookups, another full set of electronics, a walk in closet, and a private head. The carpet is a plush soft green that is heaven on your feet. The 42" plasma TV is viewable from anywhere and clear as a bell.

Back to the companionway forward to port is a custom stateroom the has a single berth with hull side cabinetry and a bureau with a full hanging closet too. To starboard is the side by side bunk room that converts to a queen when wanted. This has private access to the head through one of the many pocket doors. Just forward is the full sized washer and dryer which has easy access and is centrally located for everyone. In the bow is the VIP suite. There has been extra attention to detail here for those special guests. There is a wonderful entertainment system and a systems monitor to boot.

The air-conditioned, enclosed bridge is something to marvel about. The electronics package is as complete and complex as I have ever seen. With over \$500K spent on electronics you can only imagine. There are cameras everywhere, and all the navigation

equipment you should ever need in any situation!! Look at the list. Of course, there is an entertainment system here, too, with a wet bar and refrigerator with Corian countertops. The captains helm seat is located centerline and has a wonderful line of sight both for and aft. There is forward facing seating for your companions and an L-shaped settee for anyone wanting to hang out or take a quick nap. To let in the fresh air there are two overhead 20" electrically operated hatches, a motorized aft window and of course the pneumatic aft sliding door. On the aft rear deck is a full set of controls and a ladder leading to the hardtop.

All in all this is a remarkable boat! The option lists goes on and on. This is an opportunity for you to own one of these masterpieces. The replacement cost for this boat is well over \$5,000,000. Don't hesitate, do it now, if you want to be the next proud owner of this "Like New" Hatteras 68 enclosed bridge convertible.

---

## Salon

---

- Cherry high gloss raised panel cabinetry
- Custom U-shaped sofa
- Two end tables with storage
- 42" plasma TV
- Fully integrated A/V system with computer controlled access
