DETAILED INFORMATION

Manufacturer Provided Description

The United Marine Sea Sport 2744 Walk Around is a fishing boat ready to cruise. The 2744 comes with a long list of standard equipment including trim tabs, shorepower, an electric refrigerator, a stove, and an enclosed head with a shower. Take a weekend or a week - there's plenty of storage, a galley, and the twin quarter berths to create room for four, overnight, in comfort. Each Sea Sport is built with the finest components. Where wood is used, only Greenwood XL Certified Boat Panel wood is used, and XL carries a lifetime warranty against rot and decay. Injected into every cavity between the stringers, bulkheads, and flooring is high-density polyurethane closed cell foam. This provides a quieter ride, added structural integrity and flotation. Layer upon layer of fiberglass is carefully hand-rolled to produce a strong laminate that will give years of trouble-free service. Premium Armorflex gelcoat is used for extra flexibility and resistance to cracking and crazing. Buffback is added to the formulation to resist chalking and allows simple maintenance to renew its shine year after year. Rotocast seats and Pro Board backing on all vinyl and upholstered parts give them a virtually unlimited service life. Multi-density foam is used for day-long comfort in all seats. Marine vinyl backed with 36-ounce foam are used throughout each Sea Sport. Mildew-resistant UV coatings applied to the vinyl make the upholstery look new year after year. Stainless steel fasteners, railing systems, and hinges ensure low maintenance due to their corrosion resistance. All wiring is color coded, loomed, and safely out of the way in the engine compartment. Automatic bilge pumps are standard in every model.

Sea Sport

The Sea Sport 2744 WA is a stable fishing and cruising platform with a walk around design. A spacious cabin with newly refurbished cushions and a stand up enclosed head are two great features. The cabin includes a twin forward V berth and two additional berths aft under the cockpit on starboard and port. A stainless sink and practically new stove round out its comfort features. The electronics and gauges are in very good condition and should provide years of excellent service. Rod holders and storage as well as multiple bait wells and fish boxes are excellent features for the fishermen seeking a great fishing boat for a terrific price.

Engines

Powered by a Volvo Penta, the engine was replaced in 2014 and has +/- 100 hours on the new engine. Volvo Penta is a leading manufacture of power systems for marine use with a engine range from 10 to 800 hp. Quality, reliability, operational economy and high level of service has always been the core values within Volvo Penta. Volvo Penta

invented Duoprop in 1982 and we are continuously developing the entire package: engine, drive and propellers. Duoprop perfectly matches the engine characteristics and drive hydrodynamics. You get the best overall efficiency as well as reduced fuel consumption. It also gives your engine and drive optimal conditions for a long service life. The Duoprop, with twin, counter-rotating propellers and patented blade design – give perfect handling, easy maneuvering, excellent grip and long drive-train life. The single propellers are made of aluminum or high-performance stainless steel and are available for right- and left-hand rotation.

Reliable engine

Very low fuel burn rate

Additional Information

Triple Axle Trailer included with sale of the vessel

Electronics

Garmin 7" GPS/Chartplotter
