SPECIFICATIONS

Overview

The Offshore 62 Pilothouse is a study in perfection. The lines are handsome, strongly elegant, refined and purposed for cutting into any sea. Details abound, including: precise fibreglass work; crafted in hard edges and corners that are impossible to execute so perfectly; finely wrought, with invisible welds, the highly polished stainless steel sets off against the off-white gelcoat and soft hued swim platform and cockpit; exquisite joinery defines the classic, perfectly proportioned layout and imaginative and detailed use of space. The awe is most felt in the living spaces - the spacious, covered cockpit flows into the salon full of light and opens up to the command-the-sea pilothouse, all enveloped in rich satin teak joinery with bright varnish edging that is accented with décor details - soft furnishings, lighting fixtures, designer pillows and chairs and, in the accommodation cabins, duvets and shams that are personal, intimate, warm, and unique with white and rich color - one is invited in, and feels an urge to stay. "Singita" is truly the "*Place of Miracles*"
