SPECIFICATIONS

Overview

If you are looking for a world-class fishing boat, look no further. MAKING MOVES is the ultimate fishing machine. The 390i with twin six-cylinder, 435 hp Volvo Penta IPS600 drives makes her the highest performing boat in her class. Volvo nailed it with this one! If you haven't tested the IPS, you must take it for a run. This system will make anyone a better handler on the ocean, makes docking and departing a breeze and, most importantly, when you hook up, you'll reap the benefits.

Need to back down on a fish quick?

This baby will do so at about to 8-10 knots in a straight line and the transom will not be pulled down the way like a lot of inboards will.

Need to do a 360' turn on your axis?

She can pull it off in under 15 seconds.

Leaving a tight dock and want to depart straight out sideways?

Use the joystick control and it's so easy a child could pull it off!

This center console carries 380 gallons of fuel and, with her amazingly efficient 22 gallons/hour fuel burn at 38MPH (2750 RPM), you can cruise up to 650 miles.

The owners have kept this boat in pristine condition and won quite a few fishing tournaments utilizing the ample space on deck to maneuver and land countless fish. With the 2nd live baitwell, you'll never run out of bait. She has 56 rod holders and tons of electronics and other add-ons for fishermen that we'll show you when you come see her. This boat is second-to-none when you want to land all types of fish.

Call today because she won't be available long!
