Engine Room / Mechanical Equipment

Countless custom innovated thoughts went into this part of the boat. It truly must be seen to appreciate. Extremely well detailed fit and finish throughout. When "Mantra" was built, one of the owner's prerequisites was for extreme long range, so she was set up to run on a single engine at a time for extreme efficiency. To accomplish this, an extra steering pump and crossover stern valves were fitted during manufacturing, extending her range to approximately 4,000 nautical miles at trolling speed and a reduction of engine hours.
