SPECIFICATIONS

Basic Information

Category: Motor Yacht

Sub Category: Express

Model Year: 2017

Year Built: 2017

Country: Australia

Dimensions

LOA: 55' 0" (16.76m)

Beam: 18' 0" (5.49m)

Max Draft: 3' 0" (0.91m)

Speed, Capacities and Weight

Cruise Speed: 30 Kts. (35 MPH)

Max Speed: 40 Kts. (46 MPH)

Displacement: 28660.09406 Pounds

Water Capacity: 400 Gallons

Fuel Capacity: 1600 Gallons

Accommodations

Total Cabins: 2

Total Heads: 1

Hull and Deck Information

Hull Material: Carbon Fiber

Deck Material: Teak

Engine Information

Engines: 2

Manufacturer: CAT

Model: C8 650 Hp

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

REMARKS

Innovation is about conquering new heights which have never been reached by anyone else: ANVERA is an optimization without precedent in terms of size and performance, a veritable concentration of 'made in Italy' advanced technology. It features one of the best weight/ power ratios and at the same time distinguishes itself for a notable reduction in horse power, resulting in truly remarkable consumption efficiency: The classy simplicity of its lines, drawn with functionality in mind and searching for the maximum available space, make it a harmonious object, at the same time assertive and sporty. Anvera is a real COB (CrossOverBoat), perfect for any kind of customer. Anvera is in fact a 55 feet that consumes 4,9 litres mile of fuel at 40 knots. The elegant simplicity of its lines, designed in accordance with function, and the research for the most extensive available space, has resulted in a harmonious yet aggressive and sporty vessel, true to the "Racing" spirit of Drudi- Performance. ANVERA is entirely built in carbon, epoxy resin and particular equipment, specially made at the plant LG: it is not only light, but also exceptionally strong. ANVERA is characterized by two airfoil 12m long masts which delimit the deckhouse, the control dashboard and cockpit cover. Beautiful and harmonious is the air duct which is located in the vessel's light column bearing the superstructure. ANVERA is a new way to live the sea, where a 20 square meters beach area, together with 6.5 square meters of bow sundeck and a comfortable table for 8/10 people give Anvera a unique livability for a 55 feet.
