## Overview

---

New Listing, LLC owned, first time on the market. This Semi-Custom Ed Monk Jr. designed Motor Yacht is like no other Ocean Alexander yacht built. She was born a 83' in 2009 and then was reborn as a 96' in 2012 when Gamble Industries in Long Beach CA working with Ed Monk Jr. and Tim Nolan noted naval architect and engineer extended her 13' feet. The owner is incredibly caring about his yacht and has had it Captain maintained from day one. All systems and equipment are meticulously maintained with no expense spared to ensure she is in top condition at all times. Powered by Twin Acert C32 CAT diesel engines with 1825HP each, and were REBUILT BY CAT under warranty 10/2014, this yacht gives you the speed as well as the fuel economy to take you anywhere in the world that you would like to cruise. The boat was semi custom built with the owner making multiple changes and adjustments to the original plans as proposed by the builder to ensure she was a world class motor yacht. From her gorgeous interior to the extended California Deck you will not find another yacht of this size with all the qualities that "SVETI NIKOLA" has to offer. She will be cruising the Pacific Northwest this summer, but arrangements to see her can be made. NOTE: All personal items including paintings, pictures and statues are not included with the purchase of this vessel.
