Hull and Deck Information

Hull Material: Fiberglass

Hull Configuration: Modified Deep Vee

Engine Information

Engines: 2

Manufacturer: Volvo

Model: 500

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Powerboat Guide

The Tiara 4300 Sovran introduced in 2006 was a game-changer in the boating industry, the first American boat to be designed exclusively for Volvo's then new—and soon to be revolutionary—IPS drive system. Pod drives don't just outperform conventional inboard power; they also require less engine room space. In the 4300 Sovran, Tiara engineers were able to use this extra space by extending the mid cabin bulkhead aft, beneath the bridge deck to create a full-size guest cabin complete with its own head. The Sovran's luxurious interior, an appealing blend of high-gloss cherry cabinets, Ultraleather upholstery, and hardwood flooring, features an open salon with convertible settee to starboard and full-service galley to port. The forward stateroom has a queen island berth and flat screen TV. The Sovran's open cockpit features forward and rear facing lounge seating with a centerline table. Note that the hardtop is fully integrated into the windshield. Volvo 370hp diesels cruise at 22-23 knots;

One of Tiara's best-selling models ever.

Manufacturer Provided Description

The Tiara 4300 Sovran with Volvo Penta's Inboard Performance System challenges every assumption about what a boat can be by changing the whole future of onboard performance while elevating enjoyment of the boating experience.

On the 4300 Sovran, dramatically reduced noise and vibration allow conversations in comfort while underway. Because Volvo Penta's IPS releases up to 25% fewer emissions; owners enjoy diesel power performance, economy, and durability without exhaust smoke, noise or vibration. In fact, Volvo Penta's IPS in the Tiara 4300 Sovran delivers 25% better fuel efficiency resulting in fewer trips to the fuel dock, increased speed, acceleration and extended cruising range. The 4300 Sovran also integrates the Volvo IPS Joystick control that puts unmatched low-speed maneuverability at your fingertips. With a single, subtle movement of the IPS Joystick, you command the IPS propulsion units to respond in any direction. This gives you the power to maintain control of your 4300 during tight-quarter docking, coming about, reversing or even going straight sideways ? all without the need for bow thrusters. Most importantly, because IPS takes up 25% less area in the 4300 Sovran, the design team was able to employ the newly available space as a full second stateroom with head. Design keys such as vessel sinks and shower partitions, an optional washer/dryer, a full-size

4300 Sovran, the design team was able to employ the newly available space as a full second stateroom with head. Design keys such as vessel sinks and shower partitions, an optional washer/dryer, a full-size refrigerator / freezer, even a spice rack and voluminous storage are but a few of the new options you will find. And the cockpit seating is both inviting and comfortable? a perfect environment for the cruising lover.

Engine Notes

Volvo 500 with IPS drives 370 HP.

Exclusions

Owner's personal belongings.
