## Overview

---

The sensible choice: tremendous value in one of the most spacious layouts ever offered by Viking in a 65' class Enclosed Bridge Convertible. The 65' Viking with it's obvious huge salon and enclosed flybridge for entertaining guests does not stop there with 4 spacious staterooms and 4 heads below; owners and guests alike will be pampered.

Crew stateroom aft with direct access to the standup well organized awl gripped engine room is not only functional, but also very accommodating work space.

This particular 65' is powered with what could arguably be the best engine package ever, offered in a production life from 2004 to 2015. The MTU 16V 2000 M91 @ 2030 hp will deliver a 32-33.5 knot cruise with efficient fuel burn. The cruise speed varies due to fuel load with Viking packing in over 2000 gallons into this beast.

Added Value in "BONS AMIS" comes in her 2009 complete paint job on the hull and topside including brow mask, complete new interior soft and hard goods in some cases, including flooring and granites, a new teak deck in the cockpit, cockpit mezzanine arrangement, and updated electronics at that time.

The current owner underwent a complete bottom job in February 2017 including prop speed, new cutlass bearings, shaft seals and all new hoses in cockpit lazarette.

"BON AMIS" stands tall and should be on your radar if you are in the market for a 4 stateroom well-appointed Enclosed Bridge Convertible.
