SPECIFICATIONS

Overview

The Linssen Dutch Sturdy was built originally to cruise the waterways of Europe; however, she is just at home on the Intracoastal, rivers, bays and lakes of the US. Her all-steel construction gives the owner a sense of security and safety. She is powered by a Volvo Penta 88 hp diesel that will cruise the boat at 8 knots, while only consuming 1 gallon/per hour, resulting in over 800 nautical miles of range. While her classic looks will attract discerning yachtsman, her spacious interior will comfortably accommodate 4 adults or a family of 6.

This is the only Dutch Sturdy 320 available in the USA

Engine Information

Engines: 1

Manufacturer: Volvo

Model: TAMD-31M

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Accommodations

The Dutch Sturdy can sleep up to 6 comfortably in two private cabins. The forward cabin has a lower double berth, and a single berth over. The length of the berth is over 6'6". To port there is a large hanging locker. Natural light and ventilation is provided by a large overhead opening hatch with screen. Brass reading lights are over each berth, in addition to the overhead halogen ceiling lights. The aft cabin is down two steps and has a double berth to starboard and a single to port. There is a large hanging locker, cabinet and reading table between the two berths. There are two small lockers for personal items on the forward bulkhead. Natural light and ventilation is provided by 2 opening portholes with screens, port and starboard, and an opening ventilation/escape hatch aft behind the starboard berth. Brass gooseneck reading lamps and overhead ceiling lights provide additional light. All the cabins are finished in satin varnished cherry with teak and holly soles. The Dutch craftsmanship is evident by the precise fit and finishes usually found in much larger yachts.

Galley The galley is down two steps from the main salon and is to starboard. There is a stainless steel under-counter refrigerator/freezer (110/12 volt), and a 2 burner propane cooktop. The sink is quite large with hot and cold pressure water. Storage for cookware and food is accommodated in large under counter lockers, shelves and drawers. Two opening ports with screens provide additional light and ventilation.

Electronics

- **At Lower Helm**
- Tachometer with engine hours

- 12,000 BTU Cruiseaire A/C & Heat
- 50 amp shore power outlet
- Shore power cord (50 feet)
- AC/DC electrical panel

Deck Custom Linssen teak decks fastened to the steel deck under. Also unique to all Linssen Yachts is the synthetic-fibre rope fender around the ship. The stainless steel handrails are oversized with opening gates forward, p & S, and on the aft deck. There is a swim platform with teak grating, a under-mounted stainless swim ladder with teak steps, and an outside hot and cold shower. The aft deck is covered with a bimini top, and there are cushions and backrests for the lazarettes. Forward, the aluminum mast can be easily lowered to reduce the air draft to 9 feet. There is a Vetus 12 volt electric anchor windlass with an all chain rode. A lightweight boarding ramp can service all 4 entry positions.

Additional

This yacht truly reflects the engineering and craftsmanship that goes into all Linssen Yachts. The hull and coach house are finished like a fine automobile. There are no visible flaws or imperfections in the steel. The two part epoxy finish and undercoatings protect the yacht from rust. In the interior, note the details like individual tiles in the shower/head compartment, the solid cherry entertainment center, the attention to detail throughout the entire yacht.
