Overview

Cummins will be offering a FREE Cummins ENCOMPASS extended engine warranty with this Back Cove 41. This extended the warranty from a 2 year/1,000 hour coverage to 3 years/1,500 hours

We intend the 41 to be unequaled in its class in terms of the efficiency of its operation, the thoughtfulness of its design, and the execution of its build. The Back Cove 41 is the largest Back Cove to date and will be fitted with an efficient single Cummins 715hp diesel engine. The yacht will also be equipped with bow and stern thrusters, a generator set and reverse cycle heat and air conditioning systems are standard. The interior arrangement provides two staterooms each with a private head. The centralized galley location serves the open air cockpit as easily as the salon.
