Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Manufacturer Provided Description

The Bertram 450 Convertible is a sportfisherman that combines a deep-V hull with the needs of tournament anglers. The interior of the 450 Convertible can be compared to much larger boats. It was developed to satisfy the sportfisherman, yet deliver the comfort of a cruising boat. The salon - galley - dinette layout is spacious and practical. There is room to relax or entertain in comfort with a full complement of standard features and amenities. The second cabin is unique, with side by side twin berths instead of the more common over and under berths. Unusual in a boat of this size is the elevated cocktail area forward of the dinette, and the possibility of a washer & dryer stack in the companionway. On the practical side, much attention was paid to the organization and layout of the engine room. The fuel tank was put amidships to minimize the effect of fuel load on trim. It also acts as an effective insulator of noise and engine room heat for the forward cabin area. Careful layout of major components makes maintenance very easy. Even in the unlikely necessity of removing an engine or generator, the 450 has been designed so that this may be done without major surgery to the boat.

Dimensions

- LOA: 48 ft 3 in
- Beam: 14 ft 11 in
- Minimum Draft: 4 ft 4 in
- Maximum Draft: 4 ft 4 in
- Dry Weight: 46305 lbs
