# ХАРАКТЕРИСТИКИ

---

## Обзор

---

The OS 345 is slightly longer and wider than her predecessor, this model features an expansive cockpit for fish fighting and a large cabin for cruising and overnighting in comfort.

The hull has been specifically designed for twin Yamaha 350 hp 4-stroke engines, which provide optimal performance with minimal horsepower. Standard bow thrusters will give any captain the confidence to dock in close quarters, wind or strong currents. The express design includes an open helm with optional bridge deck cooling with air conditioning and an aft canvas enclosure so you can escape the elements without escaping the view. This layout also affords quick access from the helm to the cockpit when you have more screaming reels than anglers.

The cockpit includes ample seating and an electric grill for entertaining and a host of fishing features including a recirculating livewell, a comprehensive rigging station with locking tackle drawers, insulated fish boxes and enough elbow room that you are not running into each other.

In the cabin, pursuit developed an innovative circular seating arrangement forward for dining and socializing. The mid-cabin berth includes a comfortable settee. The head compartment features a separate shower compartment uniquely enclosed with the bi-fold acrylic cabinet door when in use. The galley features stainless steel appliances and Corian® countertops like those found in fine custom homes, you will probably want to live aboard the OS 345. Spacious cabin sleeps 4

Powered by twin 350 Yamaha's that are still under factory warranty. Only 200 hours.

Bow thruster included for those really windy days.

## Manufacturer Provided Description

---

When tasked with designing a replacement model for the 335 Offshore - the best selling model in Pursuit's history - our engineers had a tall order to fill. Fortunately, our staff is full of over-achievers and the OS 345 was born. Slightly longer and wider than her predecessor, this model features an expansive cockpit for fish fighting and a large cabin for cruising and overnighting in comfort.

The OS 345's hull has been specifically designed for twin Yamaha 350 hp 4-stroke engines, which provide optimal performance with minimal horsepower. Standard bow thrusters will give any captain the confidence to dock in close quarters, wind or strong currents. The express design includes an open helm with optional bridge deck cooling with air conditioning and an aft canvas enclosure so you can escape the elements without escaping the view. This layout also affords quick access from the helm to the cockpit when you have more screaming reels than anglers. The cockpit includes ample seating and an electric grill for entertaining and a host of fishing features including a recirculating livewell, a comprehensive rigging station with locking tackle drawers, insulated fish boxes and enough elbow room that you're not running into each other.

In the cabin, we've developed an innovative circular seating arrangement forward for dining and socializing. The mid-cabin berth includes a comfortable settee. The head compartment includes a separate area for showering to minimize clean up after a nice hot shower. The galley features stainless steel appliances and Corian countertops like those found in fine custom homes - that's appropriate since you'll probably want to live aboard the OS 345.
