SPECIFICATIONS

Overview

The flagship of the Meridian Yachts fleet represents a groundbreaking innovation for the brand. Establishing a new leading edge in naval architecture, propulsion and liveaboard comfort, the 541 Sedan more than succeeds at the core principles that define the fleet's legacy - livability, maneuverability and cruisability - it sets new standards for each.

The 541 Sedan is powered by upgraded Cummins QSM 11 diesels now standard with Zeus pod drives, one of the most technically advanced propulsion systems in the world. So at nearly 54 feet in length the 541, with its twin independently articulated Zeus pod drives, feels effortlessly maneuverable and intuitive to control.

Impeccably designed living spaces and sleeping quarters create a welcoming, relaxed atmosphere onboard. The three-stateroom, two-head layout provides berths for six passengers, while a convertible dinette can accommodate two more. The gracious comforts inside are mirrored in the 541's exterior spaces, as well: The aft cockpit blends seamlessly with the adjacent galley, while the flybridge with full-cover hardtop provides seating, refreshments and entertainment for family and friends.
