Hull Material: Fiberglass

Hull Configuration: Deep Vee

Engine Information

Engines: 1

Manufacturer: Yamaha

Model: F150

Engine Type: Outboard

Fuel Type: Gas

DETAILED INFORMATION

19'8" Zodiac N-ZO 600 Tender

This yacht tender was well cared for and carried on board most of the time, but also has a heavy duty towing eye for convenience. The tender has had the same professional care as the yacht and is in excellent condition. The yacht now tows a larger center console and no longer uses this Zodiac, so a fortunate buyer can purchase an excellent tender at much less than the cost of new. A 3000 pound capacity davit should service this tender well.

Designs

These four new N-ZO ribs enjoy the benefits of innovations incorporated into the hull and deck design. Armed with the success of the N-ZO 700 Cabin, Zodiac® has once again drawn on the talent of the renowned Italian designer, Vittorio Garroni, to design these boats with exclusive lines. These new boats have also been produced in accordance with specific technical specifications to meet the most frequently demanded requirements of recreational sailors. We have endeavored to design boats that are both safe and comfortable. They enjoy the benefits of many Zodiac® innovations.

Safety

The safety provided by a semi-rigid boat is well established. The N-ZO range benefits from the experience of Zodiac® in the design of the hulls and utilizes two innovative features:

- New technology used on the Zodiac® shell, equipped with a V-hull, which offers unmatched sea keeping and handling.
- The generous height of the free-boards, thanks to the size of its buoyancy tube and the special structure of the hull, turn the cabin into a "cocoon" for its passengers.

Pleasure

The new N-ZOs are pleasure boats to be shared with others. Particular attention has been paid to the comfort of passengers, both when sailing and when moored. Three innovative features have been included in the deck design:

- Best use has been made of the on board space. The deck lay-out has been

designed to facilitate safe moving around on-board. A new console, called an "Air Console", more raised, has made it possible to minimize the floor space used and increase your boat's interior space.

- The areas for entertaining have been enhanced. All N-ZO models have a spacious aft saloon which can seat a number of people and which offers direct access to the aft bathing platform.
- The modular design of the boats has not been overlooked. The N-ZO range is equipped with a new bow sunbathing system "Reverse & Sun" which allows an extensive sundeck to be put in place in a matter of seconds by simply unfolding the structure.

The new N-ZO range therefore comprises boats that are aesthetically pleasing, seaworthy, spacious, and particularly safe.

Hull

- V-shaped polyester hull
- Molded anti-slip deck
- Fiberglass bow molding
- EPA fuel tank capacity: 32 US gal
- Self-draining anchor locker
- Large sealed bow storage locker
- Under console storage with seat
