## Overview

---

The Alen 45, which is a smaller version of the successful Alen 55, is custom built to order for the individual client. The client can customize the color of the hull & superstructure, the electronics & navigation equipment, as well as the interior décor and exterior cushions. The client also has the option of choosing IPS or traditional straight shaft propulsion packages.

Construction can be completed in 6-8 months and the finished product can be delivered to any destination in the world.

Alen Yachts is known for building high-quality yachts that are priced extremely well giving excellent value to the brand. DYSID:3140060

**CUSTOM DELIVERY** The Alen 45, which is a smaller version of the successful Alen 55, is custom built to order for the individual client. The client can customize the color of the hull & superstructure, the electronics & navigation equipment, as well as the interior décor and exterior cushions. The client also has the option of choosing IPS or traditional straight shaft propulsion packages. Construction can be completed in 6-8 months and the finished product can be delivered to any destination in the world. Alen Yachts is known for building high-quality yachts that are priced extremely well giving excellent value to the brand. Key features: • Seakeeper gyro stabilizer • Optional IPS or straight shaft propulsion packages • Extremely seaworthy & safe design even in poor weather conditions • Best in class exterior deck spaces • Large interior cabin including queen-sized berth & full shower

**ALEN 45 - the Ultimate Day Boat:** Sociable, safe and stylish Sleek and refined, the Alen 45 combines elegance with technological innovation. The yacht's 'all around' deck makes full use of the exterior space and allows 12 guests on board in comfort and safety. Her technically engineered V-shaped hull ensures steady cruising in all conditions. The two Volvo IPS 600 engines achieve a top speed of 38 knots & an impressive 30-knot cruise giving her a range of 300 nautical miles. Each Alen 45 can be customized to create the owner's preferred layout, veneer and upholstery. Below deck, the cabin features a full beam master bed. The stern sunpad can store 2 Seabobs and launching crane or a built-in fish tank. The exterior wet-bar contains all the necessary equipment to cook a great meal can be found onboard. Bespoke, with timeless style, the Alen 45 is the ultimate day boat. 'Intelligent inspiration' sums up the design of the yacht's interior, which can be customized to the owner's requirements. A crew cabin or extra bedroom can be included, the lounge sofa converts into a double berth and the cabins have generous storage space. Teak flooring, leather wall panels and lacquered surfaces produce a warm, natural ambiance. The yacht's timeless, traditional design has built-in practicality. Her center console, walk-around deck and deep bulwarks create a safe, spacious environment where guests are 'in' rather than 'on' the deck. Whether they are at the helm, cooking or simply relaxing, everyone can be together. Up to 8 guests can comfortably sit at the extending table, near the open kitchen. At the shaded helm, the controls include the latest navigation equipment and a button to operate the hidden, custom-made anchor mechanism.

**SHIPYARD HISTORY** With a 20-year heritage in yacht design and construction, Alen Yacht has established a reputation for innovation and uncompromising quality. This has been achieved by blending traditional marine craftsmanship with 'state-of-the-yard' boatbuilding technology. With fastidious attention to detail, we lovingly create yachts that lead the way in both design and engineering. Each Alen Yacht is tailor-made to meet the precise needs of its owner. All elements, from the navigation system to the cabin configuration, are individually customized. At the same time, each yacht shares similar elegant lines and timeless

design features. Our yachts are commissioned by those seeking a 42-68-ft craft evoking the standards of a superyacht. To maintain this hard-earned reputation, our yard in Istanbul is awash with the most modern facilities. These include an advanced hull-engineering department and a fibre workshop with a pressurized fresh air system. Importantly, we use our indoor testing pool to make sure each yacht is manufactured to the highest standards. We may be traditional artisans, but we respect 21st-century innovations. **EXTERIOR** Teak deck Custom dashboard Companionway door Glass holders Custom fitted cushions S/S handles & handrails Retractable anchor davit 80m.
