Mold Ready to Build Hull #2

Vicem's Vulcan line is a fiberglass sandwich (core cell infused with epoxy) Frank Mulder design that is as well built as it is beautiful. Vicem has a dedication - some say an obsession - to be second to none. This is what motivates Vicem Yachts to build the finest yachts afloat. This dedication will assume a physical, floating presence among the most picturesque harbors in the world.

Hull #1, saw the yacht reach speeds of **28.5 knots**, or trans-atlantic capable at hull speeds. Art Line Studios performed their magic on the interior. Hull #1 which recently sold, is available for inspection to allow a client to see and feel what Hull #2 will be like. Call to discuss this beautiful new yacht build.

Full Specification Available upon Request.
