

## ERMIS 2 — MCMULLEN & WING

**Builder:** MCMULLEN & WING

**Year Built:** 2008

**Model:** Motor Yacht

**Price:** PRICE ON APPLICATION

**Location:** Greece

**LOA:** 124' 0" (37.80m)

**Beam:** 21' 0" (6.40m)

**Max Draft:** 5' 3" (1.60m)

**Cruise Speed:** 45 Kts. (52 MPH)

**Max Speed:** 56 Kts. (64 MPH)

Our experienced yacht broker, Andrey Shestakov, will help you choose and buy a yacht that best suits your needs **ERMIS 2 — MCMULLEN & WING** from our catalogue. Presently, at Shestakov Yacht Sales Inc., we have a wide variety of yachts available on our sale's list. We also work in close contact with all the big yacht manufacturers from all over the world.

If you would like to buy a yacht **ERMIS 2 — MCMULLEN & WING** or would like help answering any questions concerning purchasing, selling or chartering a yacht, please call **+1(954)274-4435**

# SPECIFICATIONS

## Overview

Designed by Rob Humphreys, this high speed motor yacht is constructed using the VIP (Vacuum Infusion Process) in Carbon fibre to obtain an ultra-lightweight construction able to withstand the extreme loadings of up to 2.2G whilst travelling at over 55 knots.

Combining design and styling by Humphreys Yacht Design with composite engineering by High Modulus, this was a technically challenging project, adding to an already accomplished resume of high tech, high performance custom projects by McMullen & Wing.

Even with three MTU16V 4000 M90 series engines, each rated at 2,720 kW, and KaMeWa jet units, weight saving remained a critical requirement to achieve the high speed performance. The M&W design team embarked upon a program to critically analyse every component of the vessel to save weight; the vacuum infusion process of Carbon-fibre / Kevlar / Foam composite was utilized in the building of hull and superstructure, Titanium where possible for deck fittings and hand rails, and light weight veneered foam panels for interior joinery, all to Germanischer Lloyds Class and MCA.

Fitted with a generous array of navigation and communications systems, ERMIS2 is a state of the art vessel, complimented with an interior that is streamlined and light. Paint-treated ash and clear varnish maple combine with contemporary furnishings to create the feel of a Caribbean beach house. ERMIS2 is the winner of: International Superyacht Society Awards 2008 Showboats International Awards 2008 World Yachts Trophy 2008

## Basic Information

**Category:** Motor Yacht

**Model Year:** 2008

**Year Built:** 2008

**Refit Year:** 2010

**Country:** Greece

**Fly Bridge:** Yes

## Dimensions

**LOA:** 124' 0" (37.80m)

**Beam:** 21' 0" (6.40m)

**Max Draft:** 5' 3" (1.60m)

## Speed, Capacities and Weight

<b>Cruise Speed:</b> 45 Kts. (52 MPH)	<b>Max Speed:</b> 56 Kts. (64 MPH)
<b>Displacement:</b> 405650.56208 Pounds	<b>Water Capacity:</b> 554.7613092 Gallons
<b>Fuel Capacity:</b> 13208.6026 Gallons

## Tenders & Toys

Dive rib 5.2m Yachtline RIB (with 90 hp Evinrude e-tec) stored on swim platform Yamaha wave runner on fly bridge Bauer junior dive compressor with automatic remote filling

## Galley

Fischer & Paykel dish washer Fischer & Paykel 2 x fridges. Stand alone Fischer & Paykel 1 x Freezer. Stand alone Fischer & Paykel hob extracted over board Miele Autovario 5 plate cooktop 900mm Miele Oven 650mm Miele inverter microwave Secured storage for all cutlery, crockery and appliances

## Deck Equipment

---

Manson stainless steel Bruce Anchor 225Kg mounted in bow with custom titanium anchor launching mechanism Maxwell 6000 stainless steel windlass system 140 metres surveyed chain in self flaking locker Manson stainless steel CQR plough Anchor 225Kg (spare) Custom titanium bollards Titanium handrails and fittings Custom hydraulic drum winch on stern with 100m warp for stern anchor/tying Fortress 125 Anchor with chain rode Fortress 85 Anchor C-quip hydraulic carbon fibre crane (1500kg swl) on aft deck C-quip Electric carbon fibre crane on top deck 4 custom opening deck tables with various mounting positions and bridging inserts Titanium swim ladder Hoshizaki ice maker on main deck Carbon fibre boarding ladder with titanium handrails 2 x Maxwell 3500 stainless steel capstans, aft deck Aft deck tables open up and expand with a table insert for banquet or buffet parties Swim deck has mounts for tables and seating to be close to the water Sun deck has a large sunbed, soft lounging and dinning arrangements, includes a removable sun shade and video projector viewing Flying bridge has 3 x Stidd chairs and full repeatability from the pilot house Ample viewing room Drive by wire Kamewa joystick positions around the deck

## Hull

---

Ermis2 is a highly engineered vessel, extremely light weight and designed to take large loads.

The hull bottom has been engineered to take vertical accelerations at the LCG in the following three load cases: • Long Range: 2.2g (Additional to gravity) • High Speed: 2.83g (Additional to gravity) • Light Ship: 2.95g (Additional to gravity)

All composite engineering design was carried out by High Modulus (NZ) Limited to fully comply with Germanischer Lloyds Rules for Special Craft: Yachts > 24m(High Speed Craft) 2003. The composite structure is certified to full Germanischer Lloyds class Notation 100 A 5 Motor Yacht. (Unrestricted Range of Service)

All composite construction was carried out in female moulds comprising of some hand laid and infused materials.

ADR 246TG and ADH28 Toughened Epoxy System from Adhesive Technologies Limited NZ was used throughout the construction. All structures were post cured at 60 degrees Celsius for 48 hours.

## Interior

---

The interior design brief was for a clean, uncluttered look, with colour to be achieved through soft furnishings. The resulting interior is reminiscent of a Caribbean beach house; light and bright, and is intended for relaxation with family and friends.

This feel is achieved through the use of white paint washed ash veneer for wall panels and main pieces

of furniture.

An example of the relaxed feel of the yacht is the galley that can be opened up to the dining area if the owner so chooses, or can be closed off for privacy.

The Salon consists of two large sofas arranged in an L formation with a coffee table. Continuing forward is the galley to port, and a rectangular dining table for up to 10 guests, to starboard.

On the lower accommodation deck there is also a small saloon comprising an L shaped leather covered sofa alongside a study, with desk and chair.

---

## Safety & security equipment

CCTV security system for exterior and engine room with continuous digital recording of all zones on 7 day loop. Remote controlled night navigator camera with gyro stabiliser, high zoom and true night vision mode linked to security system for continuous recording.

Fire detection/alarm by Autronic. All safety equipment listed in accordance with MCA. Remote alarm paging done using the local GSM network. Pager by EDAC

---

## Refit

-Included the maintenance/overhauling of all underwater fittings and penetrations/ closings during Germanischer Lloyds intermediate underwater survey -Replaced aft engine exhaust to incorporate a superior muffling system -Hull resistance and cavitations survey by Humphree systems. This included the redesign and modification of all appendages and intakes using the latest boundary flow analysis software -Added a full Humphree interceptor system with active ride control, automatic trim control and interceptor assisted steering control -Added Humphree ventilated fins for improved course keeping and roll resistance -Repainted hull topsides and matching grey superstructure (work carried out by Rolling Stock. Superstructure is Awlgrip 2000 and hull is Jotun Megayacht)

---

## Notes

- Full maintenance records - Engines last service March 2017 - Last dry-dock May 2017 (overhauling KaMeWa jet units) - Updated class certificate 2/10/2017 to 13/12/2022 DNV - Updated loadline certificate - 3 new inverters, extra 10 new batteries (gel) for silent night mode, service and navigation use (8-10hr)

---

## Exclusions

Owner's personal belongings.

---

## Disclaimer

---

The Company offers the details of this vessel or yacht in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his representatives, agents, or his surveyors, to investigate such details as the buyer desires validated. This vessel or yacht is offered subject to prior sale, price change, or withdrawal without notice.
