Model: 12V 2000 M72

Fuel Type: Diesel

DETAILED INFORMATION

Description

Built from steel and aluminum, Nerissa is a four deck full displacement yacht of 494GT. Conceived as a world traveler she has a maximum speed of 16knots with a range of 5000nm in cruising mode and is powered by twin MTU 12V 2000 M72 1448 bhp 2250 RPM diesel engines. A draft of 2.5 meters means she is able to cruise in a wide range of destinations, including shallower waters, and fin stabilisers ensure added comfort.

Nerissa is able to welcome 10 guests in five guest cabins: the master, two double bed guest cabin and two twin guest cabins, they all boast generous layouts and stylish designs. The impressive master has its own private balcony and office, with walk in wardrobes and ensuites. Nerissa was designed to cater to a slightly smaller number of guests than most yachts of her size, with four staterooms on the lower deck instead of five, in order to provide guests with much larger spaces to enjoy. The result is that all guest cabins are larger than the norm, with extensive spaces for guests to make their own.

A modern interior makes use of a copper color scheme, complemented by a range of woods and precious metals, all enhanced by large windows that flood all spaces with natural light. Marble, copper and leather complement each other to create a warm and contemporary look and a stunning staircase that links the decks is a stand out feature. The split main salon is home to an entertainment system, lounge seating and a separate formal dining table. A second large guest area is the sky lounge, which is a relaxed space with several seating options and full entertainment set up. This lounge leads directly out to the covered aft upper deck which features yet another al fresco dining space, bar and steps up to the sundeck.

In addition to the upper deck, features of Nerissa's plentiful outdoor spaces include not one but two Jacuzzis, located on the sundeck and forward upper deck, with the latter also home to recessed seating and tables. The main aft deck has a variety of seating options for guests to take in the beautiful views and relax in the open air. Another sure to be popular feature is her large beach club, that doubles as a tender garage when required, that serves as a generous and elegantly styled space for on water living, with two side hatches for the tenders and transom access to the beach club.
