SPECIFICATIONS

Overview

A heavily built yacht, 135hp Lehman diesels cruise at 8-9 knots. With 750 gallons of fuel, the cruising range can exceed 1,000 nautical miles. At 7 knots this boat only burns 2 1/2 GPH. She was built at the Lien Hwa shipyard in Taiwan on a solid fiberglass hull with moderate beam, a deep forefoot, and a long prop-protecting keel. Typical of most Asian-built boats of her era, traditional teak paneling and cabinets are used extensively throughout the interior of the 50 MY. Topside, the flybridge is arranged with dinghy storage aft and guest seating forward around the helm. The entire vessel has beautiful teak parquet floors. This is a three stateroom, four head vessel, this includes a day head off the main salon.

" Lucky Star " would be a great live aboard or the perfect " Loop " cruiser with plenty of room for everyone.

Basic Information

Category: Trawler

Model Year: 1988

Year Built: 1988

Country: United States

Dimensions
