SPECIFICATIONS

Overview

Both owners have been meticulous with regards to the maintenance and care of this lovely yacht. Rascal is ready to cruise and only burns 1.25 gals an hour for a very cost efficient vessel. Unlike other Tugs on the market the Eagle has great side decks and offers comfort in a sea way or going forward with high bulwarks. She is a wonderful cruising vessel for a couple and offers plenty of private space without being too large to handle. Many have said that 32 feet is perfect for doing the "Great Loop".

Accommodations

Her interior is both comfortable and accommodating. Starting forward and aft of the chain locker is the master stateroom with a V-berth with a wider starboard side. This is followed by the head to starboard with Vacuflush head, vanity and separate shower stall. Opposite to port is the clothes locker. Up several steps to the Pilot house with helm to starboard and settee aft. The pilot house has doors both port and starboard for easy access to the side decks. Offset to port is the companionway aft to the main living area. Here is the heart of your living area. The galley spans athwartships with the refrigeration to port and stove, sink, counters and cabinets to starboard. The aft portion of this space is the main salon with L-shaped dinette to port and table with drop leaves. Opposite to starboard is a straight settee. There are extensions both port and starboard to make a comfortable twin berth on each side of the salon. The aft door leads to her cockpit where one will find the ladder leading to her second helm or flybridge.

Rascal has a warm teak interior with beige colored cushions on the dinette and settee. She has abundant storage space and lovely cabinetry throughout.

Electronics and Navigation

Raytheon ST5000 Autopilot with remote

Raytheon VHF radio

Raytheon Tri-data Depth Sounder
