SPECIFICATIONS

Overview

The Ferretti 881 HT- is one of the most beautiful, timeless high-speed motor yachts. Everywhere you look you will be surprised by the attention to detail. The helm position is well forward to create a large living area saloon, there is the wide beam to create generous width. She has a comfortable living area inside, and a world-class flying bridge for entertaining, plus a huge water sports activity area on the stern.

Externally a very large flying bridge, provided with a Jacuzzi, hard top and sofas, makes this area the ideal place for sharing unforgettable moments with the guests. There are two huge sun pads on the bridge, seating for at least 12, a secondary helm complete with retractable instrument panel, a mini galley complete with fridge, stove top, sink and serving bar –plus, the centerpiece for entertaining: a large hot tub with Jacuzzi.

The generous salon with leather sofas and an ample central table reveals design and practicality. Throughout, there is the highly lacquered cherry interior. This warm cherry has been the classic and adds to elegance. The cherry paneling and furniture have a pale finish, and produce a light, soft interior, which matches well with the tan leather and cream-colored, coarse-woven fabric on the walls; thin horizontal wood strips break up the paneling. This rich simplicity creates what is one of the best and most restful interiors.

She is an ideal yacht for enjoying the outdoors: from the Jacuzzi on the fly bridge to the cockpit which boasts a teak table suitable for eight people to enjoy the sea while relaxing. The cockpit has space for a gleaming wood table and settee—it's an attractive alfresco dining alternative to the saloon. The master stateroom on the Ferretti 881 is one of the most unusual and exciting master staterooms. The Ferretti 881 the timeless beauty presents design solutions made to optimize the spaces and the brightness of the different cabins. The innovative use of space brings out best features like the layout of the master cabin which presents two large open-view windows on both sides making it an incomparable suite in terms of spaces and light and gaining an incomparable spaciousness and luminosity. Located wide in the central part of the hull, the master-cabin faces the direction opposite to the navigation, and allows the shipowner to enjoy a unique view of the sea lying down on the bed or in the Jacuzzi.

A large garage located aft, with an hydraulic opening, folds out producing a 90-square foot platform extending out over the water. Not only can this be used for swimming, diving and sun bathing, but we also have this as a handy dock for the inflatable, jet ski, kayak, or other water toys.

The interior spaces and finishing made this yacht a real villa on the sea.
