## *11. COMMENTS*

BILL AND ME is a motor yacht with a blend of advanced naval architecture from Mani Frers and a dramatic interior and exterior design constructed by the world renowned Baltic Yachts who specialise in full custom yacht building in light weight carbon composites.

BILL AND ME was launched and underwent sea trials in summer 2017 before undertaking a 3,500nm maiden voyage from Finland via the UK to the Mediterranean and her final destination at the Monaco Yacht show.

With extended cruising range in mind she is powered by twin Volvo IPS800 diesels driving Duo-props for smooth and enhanced efficiency. BILL AND ME boasts good all round viability and an ethos for practical cruising together with an alfresco lifestyle.

Maximised accommodation features include a stern garage, diesel tender and a well-equipped galley featuring a dumb waiter to the saloon. The superb interior styling was greatly inspired by the yacht's owners who worked hand in hand with Design Unlimited.

A striking exterior with reflective windows to mirror the surrounding environment with practical features including deep bulwarks providing well protected decks and flush retractable deck cleats and winches. Many other unique design features include a submarine underwater anchoring system.

BILL AND ME offers an alternative concept to yacht design and is clearly unique in her appearance.
