SPECIFICATIONS

Overview

Built to last by arguably the most capable yard in Italy, this blue water voyager is manufactured with a traditional steel hull and aluminium superstructure. Her twin MAN 440hp diesel engines deliver a cruising speed of 10 knots, whilst at 8 knots this classic canoe stern displacement yacht will return incredible fuel consumption of around 50 litres per hour - an impressive 2600nm between refuelling. Zero speed stabilizers, state-of-the-art technology and a superb audio & visual entertainment system make this the perfect yacht for exploring the Mediterranean and more remote destinations. Lavishly appointed, this Benetti Sail division 82 RPH hosts up to 8 passengers in four luxuriously appointed staterooms. The owner's central double en-suite lies aft, two en-suite twin cabins amidships and a second double cabin is located forward with bathroom across the hallway. The crew's quarters are situated in the bow accommodating a team of 3 in two (importantly) separate cabins which provide direct access to the crew mess and laundry facilities.

A commercially equipped galley is located on the main deck with access to the sumptuously appointed salon and dining area. This Benetti Sail Division 82 RPH underwent a €1m major re-fit during 2012
