SPECIFICATIONS

Overview

Offshore yachts are designed and built with an attention to detail that is remarkable. The more you know about boats the more you'll appreciate Offshore's demanding standards of quality. It's not until you've made a difficult passage in rough seas that you will truly appreciate Offshore's maxim "The softest ride on the water." This isn't just an advertising slogan; it is the result of superior design translating directly into increased comfort, safety, and value. Details like recessed hull portlights, molded side-deck overheads, and fully finished, deck-hatch undersides tell the knowledgeable buyer a lot about the level of craftsmanship that has gone into every Offshore. These are yachts that invite comparison with other well-known brands, some of which cost hundreds of thousands more but still don't measure up to Offshore's standards. Take a close look at an Offshore and the features that place it at the top of its class. Long time successful Crealock deep-V offshore hull design with standard bow and stern thrusters, stabilizers, SeaTorque enclosed shaft system, and a three-stateroom layout. An evolution of the most popular Crealock design in the line. Changes include increased headroom in engine room and better access from the cockpit.

DETAILED INFORMATION

Overview

Next Available HULL#100: Brand new 2018 Offshore 62 Pilothouse.

As with all Offshores, the 62 is designed with a deep and finely-veed forefoot that slices cleanly through rough seas and virtually eliminates pounding and slapping. A flared bow section with radiused spray chine provides the driest possible ride. With full covered walk-around decks, a spacious boat deck, large low windows that provide big sit-down views, 2 or 3 stateroom layouts, and an optional extended cockpit, this is the ideal convenient-sized home away from home boat for cruising couples and adventurous explorers of all kinds.

Loaded with major equipment:

- Twin C12 Caterpillar 715hp engines
- ABT roll-fin hydraulic stabilizers
- ABT 25hp bow & stern thrusters
- ZF Joystick Maneuvering System (3 stations)
- 1,200lb hydraulic cable, boom, and rotation davit
- Marine Air 65,000 BTU reverse-cycle air conditioning system
- Energy saving LED lighting package
- SeaTorque Enclosed Shaft System for reduced noise and increased efficiency

Exclusions

Owner's personal belongings.
