## Overview

---

Kuikila is a highly equipped first owner yacht and first time on the market. Her planning hull and an advanced propulsion system give her extraordinary performance. Twin 3700hp MTU engines and a Vericor gas turbine are linked to triple water jets, producing 12800hp of thrust and enabling her to cruise at 30 knots and blast through the water at a top speed of 52 knots. The water jets inlet ducts of the jets are an integral part of the hull moulding which gives a better water flow to the impellers and improves their efficiency. She also benefits from a well balanced contemporary, European styled light interior. The yacht presents herself in excellent overall condition, fully maintained to top standards by a demanding captain who has been on board since her launch. RINA classed and EU VAT PAID. All certificates are up to date, and no expense has been spared, new paintjob and upgrades in 2015. Kuikila is truly a turnkey yacht.
