## Overview

---

This 2016 Yellowfin 39 Offshore **Quad** is powered by 4 2017 Mercury 350 Verados with only 160 hours and full factory engine warranties until 2020. To say that she is completely loaded is almost an understatement. This particular 39' Yellowfin was constructed and customized with no expense spared and offers a unique opportunity to own the **only 39' Yellowfin with the upgraded Carbon Fiber hull on the market**. The Carbon Fiber hull offers much better fuel economy, is much stronger, faster and lighter, weighing a whopping 2400lbs less than the epoxy/polyester hull. She offers the finest in electronics and has an available tower. Underneath the wrap she is a pristine white hull with a gray bottom. Designed for quadruple power, she is truly built for ultimate performance and handling when the weather refuses to cooperate. This 39 can run and fish with all the big dogs in any condition. Why wait the 16 month waiting list? Call for your easy showing today, you will not be disappointed. This boat is fully loaded without limits.
