SPECIFICATIONS

Overview

A totally new 48' Convertible has joined the Viking product line. The exterior is sleek and powerful and the boat makes an impressive statement even resting at the dock. The wraparound black metallic windshield mask, window lines and flying bridge feature treatments reveal how far we have come with this evolutionary theme. The resin infused hull is beamy and carries its breadth farther aft for more interior room and a wider cockpit. The raked entry and forward chine are designed to pierce through head seas and divert spray downward.
