### Dimensions

Hull Length: 35 feet Beam: 9 ft 2 inches Draft Up 19.5 inches Draft Down 27 inches Dead Rise at Stern 24 degrees Approx Dry Weight w/o Engines 6,000 pounds

### Features

**24 Degree Deep-V hull with 12 degree pad keel and a stepped transom offer faster speeds while maintaining an exceptional ride. Wide 9 ft 2 inch beam provides exceptional stability. Light weight design means faster planing and faster cruise speeds. Greater range on less fuel. Smaller engines and a more easily driven hull means lower fuel consumption. Easily handled on smaller lifts. Can be towed by most normal-size pickups and vans.**

### Tankage

**Fuel Capacity: 246 gallons Freshwater: 31 gallons**

## About Marlago Boats

**For More Than Twenty Years (1994), Marlago Boats Have Built A Foundation Around Providing The Most Versatile, Offshore Center-Console Boats On The Water. The Marlago Sport Series Is Designed To Cater To The Boating Experience. Whether It Be Snorkeling In The Bahamas, Fishing Off The Florida Coastline Or Cruising The Chesapeake Bay. The Marlago 35 SPORT Cuddy is a boat for distinguished yacht enthusiasts and anglers. Built by Jefferson Yachts, the Indiana-based company's quality craftsmanship and design is illustrated in this sleek and powerful yacht, which performed extremely well during all testing maneuvers. Jefferson Yachts has designed this boat as a hybrid of sorts, the vessel would be just as comfortable and stylish in a fishing tournament as it would for a leisurely cocktail cruise around the harbor with six to eight guests.**

## Construction

**The topsides, deck and interior gunwales are made with Nida-Core. This proprietary system is a high-strength, cored, fiberglass system that is vacuum-sealed and cured to ensure strength and rigidity. Nida-Core has been tested and proven on mega-yachts, offshore racers, U.S. Coast Guard vessels and passenger ferries just to name a few. The hull below the waterline is solid, high-quality modified vinylester resin and fiberglass. The swim step/motor platform is an integral part of the hull. It is part of the hull itself and designed for extra strength and rigidity. There are no engine brackets or motor mounts to corrode or fail, and the result is a beautiful and sleek appearance.**

## Accommodations

**The low-profile cuddy cabin takes full advantage of the wide beam for a roomy enclave. The comfy V-berth is nearly nine feet long with ample storage underneath. An overhead hatch provides ventilation and natural light. The cuddy model sleeps two forward. There is a high-low table, plenty of lighting and a feeling of openness with a nice accent of teak trim. Specially fitted boards fill in the center to make a comfortable bunk for two, which enables you to fish or tour overnight in comfort.**

## Console

**Walk-in sport console with sealant vacuflush head. Vanity, sink with pull out shower and storage. Plexiglass windshield on console with aluminum grab rail Compass Sport Steering Wheel**

## Cockpit

Freshwater and saltwater wash-downs Bait prep sink Fresh water deep sink Built-in live well with built pump Two large capacity insulated fish boxes (below deck with overboard automatic pompous) Leaning post with built-in storage Rod racks under gunwale (2) Four molded-in fish fighting stations with toe rails Self-Bailing cockpit Indirect cockpit lighting and swim platform lighting Cockpit coaming pads Fire Extinguishers Two molded-in drink boxes with line storage forward Integral grabrail system both sides of cockpit All hatches self drain overboard Walk thru transom
