SPECIFICATIONS

Overview

Illusion of the Isles is a 30.2m sloop sailing yacht with a displacement hull, built by the Southern Wind Shipyard. Nauta Yachts was responsible for her beautiful exterior styling and interior design, and engineering by Farr Yacht Design.

Sailing yacht ILLUSION OF THE ISLES is a Southern Wind SW 100 DS superyacht launched in Cape Town in 2006. She is the second hull built in a successful series of performance orientated yachts which were designed by Farr Yacht Design with a powerful sail plan and comfortable yet high performance hull lines.

In the words of Southern Wind: "The SW 100 DS combines styling and performance, with reliability and safety for comfort and peace of mind during long blue water sailing."

COMMENTS:

Illusion of the Isles is a 30.2m sloop sailing yacht with a displacement hull, built by the Southern Wind Shipyard. Nauta Yachts was responsible for her beautiful exterior styling and interior design, and engineering by Farr Yacht Design.

Sailing yacht ILLUSION OF THE ISLES is a Southern Wind SW 100 DS superyacht launched in Cape Town in 2006. She is the second hull built in a successful series of performance orientated yachts which were designed by Farr Yacht Design with a powerful sail plan and comfortable yet high performance hull lines.

In the words of Southern Wind: "The SW 100 DS combines styling and performance, with reliability and safety for comfort and peace of mind during long blue water sailing."

This blue water cruiser combines the advanced composite construction techniques with the traditional carpentry of Southern Wind Shipyard, and is the ideal choice for both family use and luxury charter.

The deck plan of the SW 100 ILLUSION OF THE ISLES has been designed to allow easy sailing and comfort for both the crew and guests. The steering system of two-wheel pedestals grant an excellent visibility to the helmsman thus making the aft cockpit an ideal manoeuvring space, while a large sun-bathing area next to the central cockpit allows plenty of room for relaxing and socializing on deck.

Main Sail, primary and secondary winches are hydraulically operated. As well as most of the major functions on the SW 100 DS, such as the Passerelle, the anchor arm or the transom door which in the open position becomes a practical swimming or boarding platform.

In sailing yacht ILLUSION OF THE ISLES Nauta Design has used their Italian styling to create an interior that is both elegant, functional and comfortable. The lay-out features a clear separation between the crew quarter and the guests' and the owner's area.

The SW 100 DS ILLUSION OF THE ISLES is the second of a successful mini-series produced by Southern Wind Shipyard.

HULL & DECK

Advanced composite sandwich construction of Kevlar, carbon fibre, epoxy resin and Corecell/Klegecell

The hull, deck and structures were built using the latest infusion techniques and the result is a displacement of merely 59 tons.

Large lazarette for storage in the foredeck.

ACCOMMODATION

Nauta Design uses their bekknown Italian styling to create an interior that is both elegant,

functional and comfortable.

The layout features a clear separation between the crew quarters and the guests and owners' area.

On sailing yacht ILLUSION OF THE ISLES there is accommodation for 8 guests in 4 cabins in a 2 Double and 2 Twin cabin layout.

The panoramic Deck Saloon features unobstructed views of the outside provides an ample raised U-shaped settee in cream coloured upholstery and coffee table to starboard, and a large dining area to port for 8/10 people. Large windows and overhead hatches provide plenty of light.

The Owners Cabin located forward is in the quietest area of the yacht and allows privacy and comfort. The king size bed sits nicely in the center but does not dominate the entire space. Other features are a corner vanity unit and a double - seated couch. Private en suite with shower stall, Sharp 40"TV, DVD and DC player

The two port and starboard guest cabins amidships are forward of the crew area and are twin ensuite cabins. They have windows for natural light and plenty of storage in hanging lockers overhead.

The third ensuite VIP guest cabin forward of the saloon on portside consists of a double berth.

Alongside this cabin is an owner studio which can be an enclosed area adjacent to his cabin, or when opened up is an extension of the upper saloon.

The independent crew quarters are located aft in the stern and include the crew mess, crew cabins, two crew heads and one day head.

The skipper's cabin has an ensuite double berth whilst a double bunk crew cabin sleeps 2/3

There are 2 crew bathrooms and a separate crew dinette.
