SPECIFICATIONS

Overview

Acciaio 105

Acciaio 105' is a three deck full displacement Explorer vessel in steel and aluminum, 32 mt in length-overall and 7,7 mt in beam for a gross tonnage of 296.

Acciaio is the epitome of the CdM level of customization, born after a brief given by an Owner which was particularly impressed by the vessel performances at sea and robustness but not appealed by the tug styled *Darwin Class* or the timeless designed *Nauta Air*. He was looking for a masculine look yet with stylish and flowing lines, which CdM was able to interpret and shape with the profile of *Acciaio*.

Another remarkable feature of this vessel is the garage, which posed an engineering challenge as it hosts a 4,5 mt tender and launching system through a shell door while at the same time maintaining the iconic and stylish Nauta Air style stair on the vessel's transom.

Under a technical point of view, each Acciaio is equipped with an unrivalled engine room for vessels of this size, overengineered and extraordinarily easy to maintain as per CDM's highest standard.

Each CdM yacht is custom built to order and will be completely customized at the request of the individual client: whether it is the custom color of the hull & superstructure, layout of the sundeck, interior decor, or the general arrangement floor plan - every detail is customized.

Basic Information

Category: Motor Yacht
