SPECIFICATIONS

Overview

Acciaio 123' is a three deck full displacement Explorer vessel in steel and aluminum, 37,3 mt in length-overall and 7,8 mt in beam for a gross tonnage of 340.

Acciaio is the epitome of the CdM level of customization, born after a brief given by an Owner which was particularly impressed by the vessel performances at sea and robustness but not appealed by the tug styled *Darwin Class* or the timeless designed *Nauta Air*. He was looking for a masculine look yet with stylish and flowing lines, which CdM was able to interpret and shape with the profile of *Acciaio*.

Under the design point of view, the stair on the transom is surely among the yacht's top features: it creates an al fresco beach club between cockpit and swimming platform which, unlike all other shipyards, is open to the sea and seamless connects the salon to the water and it is perfectly serviceable by the crew.

Tender can be either chosen to be accommodated in the garage or on the upped deck. In the first case, a tender up to 4,5 mt can be stored. In the second case, a tender up to 6,5 mt can be carried on upper deck and carried through a dedicated crane. Beside the advantage of a bigger tender, this second option allow the Owner to have a lazarette fully dedicated to his toys.

Under a technical point of view, each Acciaio is equipped with an unrivalled engine room for vessels of this size, overengineered and extraordinarily easy to maintain as per CDM's highest standard.

Each CdM yacht is custom built to order and will be completely customized at the request of the individual client: whether it is the custom color of the hull & superstructure, layout of the sundeck, interior decor, or the general arrangement floor plan - every detail is customized.
