---

## Safety Equipment

---

- Life Rafts

---

## 80' Redtek Marine Custom Power Catamaran 7 LUNAS

---

Built at the prestigious Turkish yard Redtek Marine (the same yard which built Johnny Depp's 47m Yacht Varioja) to RINA class standards the quality workmanship and materials are apparent as soon as you step aboard. An expansive owners suite on the upper deck features a huge walk in wardrobe and giant bathroom with views out over the water. Glass doors span the entire aft of the master suite which open up to a big

back deck that makes for a perfect spot to enjoy that morning cup of coffee in privacy while enjoying the view of your surroundings. The full beam bridge is forward of the master and is well laid out and spacious. Throughout the vessel is an impressive seven foot headroom. The main deck is made for entertaining with a large open space with a dining room table, settee area and entertainment center. This deck features three king masters each with large ensuite facilities boasting a spectacular view to the outside. On this deck there is also a day head and a large pantry. The large back deck is partially covered and has steps down to swim platforms on each side. There are two well laid out storage lockers as well as other storage on the transom. All outside deck are high grade teak, and it shows. On the transom is a electric crane to lift the 10' Mercury dingy w/40hp Yamaha into the water. Built on a well-know commercial hull used for high speed ferries in the Med by a commercial yard name Redtek Marine, this vessel was built to RINA class society standards and has all of the technical drawings on board.

## Exclusions

---

Owner's personal belongings.
