Vessel Walkthrough

The C37 has an uncanny retro feel with its axe bowline and high freeboard that carries well forward. This impressive look provides many practical benefits as well. Carrying the 13'6" beam forward results in a spacious lower deck that's unexpected in a cruiser of this class. The single head, two stateroom design features a large master stateroom with 6'5" headroom, a queen size bed, two hanging closets, four overhead cabinets with lots of natural light provided through the large windows, and an overhead hatch.

The second stateroom can be configured either as two twin beds or by installing the filler cushion it converts to a full queen bed. A large hanging closet & storage cabinet offers ample space for guests and their gear with additional storage under the bunks. An overhead etched glass skylight & large side window add natural light contributing to open feeling of the space. Adding a flat screen TV & separate stereo system will provide your guest with all the comforts of home while aboard.

The C37 helm offers all around visibility with its large windshield & side windows. It is well-thought out, providing abundant space for the latest navigation equipment and system controls. The helm seat slides forward and back to easily adjust to your desired position and the flip up bolsters change position quickly, allowing you to operate the boat sitting or standing as you desire.

An adjustable passenger seat is located opposite the helm with space for two. The inviting lounge area is stylish and practical providing clever ways to adjust the seating configurations for dining or cocktail hour. There is a huge amount of storage under the seats and below deck. The dining table can be lowered, adding additional sleeping space for two with plush filler cushions. Positioning the galley in a central location offers easy

access to both the salon and aft deck. With plenty of storage space and a recessed stove and sink, the galley provides lots space with an elegant appearance.

A key feature of the C37 Coupe is the large glass folding doors open across the width of the boat to create a seamless transition between the aft deck and the salon. Salon seating is adjustable to change the focal point to the outdoors. An additional ice maker and refrigerator can be added, helping make this area the main attraction for cocktail hour.

The aft cockpit retractable sun shade opens with the touch of a button providing shade over the entire cockpit while enhancing the connection with the salon area. The sturdy stainless-steel frame allows shade to be deployed while underway. The teak cockpit table is perfect for alfresco dining or can be lowered to create a large sun pad with plush cushions. There are large storage areas under all the seating for lines, fenders, and other gear.

Like all Carver Yachts, the C37 is built tough using “Infusion Technology” along with an extraordinary stringer system that reinforces the bow as much as the bottom. That means less weight, more strength, and better performance! Carver’s manufacturing operation is unique in the industry possessing in house capabilities for components usually left to subcontractors. This horizontal integration insures the highest quality in the industry. Carver craftsman produce cabinetry, upholstery, and metal fabrication in on-site workshops where the boats are built.

Standard Features

Construction • Hull and deck: Hand-laid structural and non-structural fiberglass and core laminates bonded with infused resin. • Hull bottom: Surface beneath the water line is bead blasted to create an optimal bonding surface for the anti-fouling paint which is sprayed onto the hull to create a smooth running bottom. • Stringer system: Fiberglass stringers are used throughout the yacht. • Interior bulkheads, cabinets and drawers are precision cut, hand-ttt crafted and constructed from a selection of woods and high-pressure laminates. Drawers are lined with laminate. • Integral aluminum truss reinforcement in cabin top structure.

Electrical • Horn, 12V single trumpet. • Lighting fixtures, 12V LED (14). • Navigation lights (USCG/COL REG approved). • CATV inlet. • Battery switches on/off (1) accessory, (2) engines, (1) optional generator, (1) optional thruster. • Digital charge distribution system. • Batteries: (2) engine, (1) accessory, (1) optional generator, (1) optional bow thruster. • Digital electronic battery chargers: (1) accessory and engine batteries, (1) optional generator and thruster batteries. • Single AC 30 amp dockside electrical service with 50’ cord. • Distribution panel: AC, with circuit breakers and voltmeter/ammeter. • Distribution panel: 12V DC, with circuit breakers. • Zinc’s: Sacrificial (1) primary (2) trim tabs (2) propeller shafts. • Ground bonding system. •

High bilge water alarm.

Propulsion • Fuel tanks: Twin, 5052 aluminum tanks hold 125 gal. (473.2 L) of fuel each. Port and starboard fuel fill deck fittings. • Trim tabs: Bennett Marine® stainless steel, electro-hydraulic trim tabs. • Steering: Teleflex® SeaStar hydraulic steering. • Helm display: Digital LCD display showing tachometer, hour meter, oil pressure, coolant temperature, battery voltage, fuel tank level and rudder angle indicator.

Fresh Water & Holding Systems • Fresh water system: 90 gal. (340 L) polyethylene tank with shore water connection and integrated pressure reduction valve. • Fresh water fill fitting installed on walkway. 11 gal. (41.6 L) water heater installed in engine compartment. • On demand fresh water is delivered via a fresh water pump installed in the engine compartment.

Decks & Hardware • Gunwale trim: Rigid vinyl with stainless steel inserts. • Cleats: (2) 10" bow, (2) 10" spring line, (2) 10" stern, (2) 10" swim platform, (1) 10" anchor. • Hatch: Bow, translucent, opening with screen. • Deck fitting: Fuel fills (2). • Deck fitting: Fresh water fill (1). • Deck fitting: Waste, pump out (1). • Rails: Bow, 1" stainless steel top rail, 1" stanchions, welded, with stainless secondary rail. • Grab rails: Stainless steel. • Engine compartment power and static ventilation located in superstructure. • Transom platform: Fixed. • Swim Ladder: Under mount, starboard side of swim platform with recessed grab handle. • Nonskid fiberglass decks. • Vinyl ester barrier coat. • Anti-fouling bottom paint. • Bronze seacocks: All underwater through hulls; double SS hose clamps. • Nylon through-hull fittings with stainless steel caps; above waterline applications. • Standard white gel coat for hull and deck. • Black vinyl boot stripe.

Safety & Navigation • Bilge pumps: Two 1,500 gal. (5678 L) per hour automatic bilge pumps are installed, each with a manual on/off switch at the helm. A float switch for the high bilge water alarm is installed in the engine compartment and forward bilge. • Bilge ventilation: Four ventilator blowers are installed in the engine compartment. Each blower creates 240 CFM volume. • CO alarms: Monitors with alarms are installed in both staterooms and the salon. • Engine alarms: Engine oil pressure and water temperature alarms are installed at the helm. • Fire suppression System: An FE241 Fireboy® automatic fire suppression system is installed in the engine compartment. • Compass: 2.75" flush mount, illuminated Ritchie® Navigator compass is mounted at the helm. • Seacocks: Marine grade bronze seacocks are used on all below the waterline through hull openings. Nylon fittings are used on above the waterline outlets. • Spotlight: ITT Jabsco® remote control spotlight mounted on bow rail.

Helm • Dual helm seat, helm side adjustable. • Dash console, non glare. • Engine controls: Engine manufacturer electronic. • Trim tab controls. • Steering: Hydraulic. • Engine Instrumentation: Engine manufacturer LCD display. • Compass: Ritchie, 2.75", illuminated. • Steering wheel: Sport. • Accessory outlet, 12V (1). • Beverage holder. • USB outlet.

Cockpit/Transom/Swim Deck • Self-bailing cockpit. • Door: Hinged cabin entry, locking, black painted, flat glass. • Courtesy lights (4). • Lighting: Overhead in bridge overhang (4). • Molded steps: Access to side decks. • Cockpit hatch (1): Engine room access, hinged, gas shock. • Cockpit floor Storage (1): Storage box. • Transom door: Transom storage locker with dockside connections and shower option.
