SPECIFICATIONS

Overview

The concept behind this extraordinary yacht was to create a genuine leisure platform, where luxury, extreme comfort and communion with the sea are fused together in one elegant and timeless design. The Canados 108' Classic truly represents a new experience in yachting where every owner's expectation is considered and tailored made. The main defining aspect of the 108' Classic is the constant interaction between the ocean and those on-board. To achieve this, no detail has been overlooked. For more information, call us today!

Model: 16V 2000 M96L

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

A Unique Breed Of Yachts

Not all yachts are born equal. Most are simply engineered to allow movement between marinas and for occasional enjoyment at sea. At Canados, however, almost 70 years experience in manufacturing the finest custom yachts has driven us to rethink this basic perception. One of the result? Our 108' Elegance. The concept behind this extraordinary yacht was to create a genuine leisure platform, where luxury, extreme comfort and communion with the sea are fused together in one astonishing design. The Canados 108' Elegance truly represents a new experience in yachting where every owner's expectation is considered and tailor made.

Live The Sea

The main defining aspect of the 108' Elegance is the constant interaction between the ocean and those on board. To achieve this, no detail has been overlooked. The aft garage contains a 3-seater personal watercraft and a 4.30m tender. At anchor, at port or underway, our signature molded fore-deck balconies create an additional outdoor living space with technical equipment carefully concealed to maximize the fore-deck space and create an extra living area.

Luxury At Its Peak

It is an open secret within the yachting industry that Canados is one of the few builders to manufacture its own interiors. That our craftsmen are the best is not disputed either. Each Canados is bespoke, fashioned according to our client's tastes. Working alongside our clients, or their designers, we realize their dream interior designing their own layout and crafting custom furniture. One thing is sure: whether your interior choice is classical or contemporary, during the day or night it will provide the perfect environment to appreciate the coastline slipping by the side picture windows.

Master Suite

Statement of the flexibility of the 108' Elegance's design, two master suites can be configured on the main deck and the lower deck. The generous space allows for the inclusion of a desk, library or anything else your heart desires. Indeed, as illustrated here, sofas have been installed to engender a cozy atmosphere in each suite. Whether at anchor or in navigation, large horizontal portholes provide spectacular views of the surrounding environment. Like everything on-board, the master suites are created to satisfy the owner's wishes... the Canados way. We are here to create your yacht.

VIP Living

The guest cabins located forward on the lower deck are designed to your preferences. Treated with the exact same attention to detail as the owner's suites. From VIP guests to kids' room, they will luxuriate in the every detail. Blending the finest leather, glossy and high end wood veneers, your family and friends will feel they are always treated first class.

Genius In The Details

While certainly a stunning yacht, the Canados 108' Elegance is also a true offshore going vessel. Pleasure and practicality have been seamlessly merged to ensure your pleasure and safety are effortlessly achieved. Internationally renowned Boffi manufactures the galleys to your own design, while companionways and passages all offer secure circulation around the yacht even when underway. For added aesthetic appeal and purity of the yacht's profile, all life rafts are concealed in fast release storage lockers.

All About Technology

The focus on interaction of guests with the ocean was not paid lip service by our in-house engineers; they created jaw-dropping results through a series of unique technical innovations. The molded fore deck balconies and the floor-to-ceiling lateral bay windows are just examples. The raised pilothouse (pictured opposite) is equipped with the latest state-of-the-art navigation, communication and monitoring systems, allowing the crew total control over the entire yacht from a single position.

Exclusions

Owner's personal belongings.
