SPECIFICATIONS

Overview

PUCHADES provides her owner with the sensation of performance, elegance, comfort, and strength. The beautiful comes from Horizon's considerable architectural talents with sweptback lines running from the front windscreen, across the flybridge and on well aft. This ensures the boat makes the most of its vertical volume without appearing too tall. Excellent use of glass to create a sense of light and space throughout the interior from salon to staterooms. Glass-leading engine room layout & space make it feel like a much larger vessel. All this is made possible from the yacht builder that creates and builds vessels up to 150' and has been under the same command for over 30 years. It is very apparent this 56' yacht possesses the attributes and engineering crafted from the #1 builder in the Asia-Pacific Region and one of the top 10 luxury Yacht builders worldwide for many years. November 2017: • Bottom painted • Complete wax • Engines serviced • Reupholstered exterior cushions with Sunbrella material
