Overview

Calypso is a 1989 40' Hyatt sundeck trawler with a great pedigree. Her hull was manufactured by Trans World Yachts who are also known for the famous Alaskan yachts designed by Art DeFever. The actual completion of Calypso was in 1994 when her Cummins diesel engines were installed. Construction is a solid fiberglass semi-modified vee hull with fiberglass deck & superstructure with core. Her 14' 6" beam allows for a very large aft sundeck with hardtop, flybridge with seating for 8, a large salon with galley down, and a full beam aft master stateroom with a queen walk around berth and a side queen berth in the forward stateroom. Hyatt is well known for her elegant teak woodwork throughout. There have been 3 refits between 2014 & 2017 with numerous upgrades. Calypso has been very well maintained by her owner captain and is competitively priced. This vessel is turn key and ready to go.
