SPECIFICATIONS

Overview

This **Luhrs 31 Open IPS** has been exceptionally well maintained. A fantastic opportunity to own a low hour vessel and catching Big Fish from Small Boat.

The **Luhrs 31 Open** is one of a handful of small inboard-powered express boats built in recent years. She's built on a solid fiberglass deep-V hull with a wide 11'10" beam and prop pockets to reduce draft. **She's in great condition and ready to be seen.** Call to schedule a showing today!

DETAILED INFORMATION

Manufacturer Provided Description

As the owner of a Luhrs 31 Open, you have chosen one of the finest boats money can buy.

Luhrs Corporation, is one of America's oldest privately held boating companies. In February 1996 Luhrs became an employee ownership company. We continue to be dedicated to giving you a quality boat that will bring you years of enjoyment whether you're spending a day at the marina or cruising down a waterway. Performance, dependability, safety, and comfort is more than just a catchy phrase at Luhrs. It is the basis for every step of design and construction to assure you of many pleasure-filled years of boating.

A Proud Heritage

With every Luhrs, three generations of experience combine with modern engineering and production techniques provide you one of the most affordable, full featured fishing boats in the industry today.

From the tower to the transom door, every piece of equipment and its placement has been engineered to provide the most seasoned angler with the best advantage on the water. Luhrs has included everything but the tackle to make ours the most complete sport fisherman on the market today. Bait prep and rigging stations, washdown, rod holders, rocket launchers, and a complete package of Coast Guard approved safety equipment will get you out to the bluewater action without a lot of extra cost.

Fuel System Components

The purpose of the fuel system is to maintain the necessary supply of fuel to the engines and generator upon demand and as needed. The fuel system on your boat is comprised of the following components or systems, which will be described separately:

- Fuel Tank
- Fuel Lines and Hoses
- Fuel Valves
- Fuel Filtration

Fuel Tank

Your Luhrs 31 Open is equipped with 2 fuel tanks, having a capacity of 300 gallons. One is noted as being the port tank and the other is the starboard tank, these are labeled according to the engine they supply fuel to.

The fuel tanks are equipped with a fuel level sending units; which provides an electrical signal to the fuel gauge located at the helm, to indicate the fuel level.

The port tank is the tank forward of the engines and the starboard tank is the tank located in the bilge between the engines.

DC Electric System

- Batteries
- Battery Switches
- Bilge Pumps
- Oil Changer
- Shower Sump
- Windlass
- Generator Starter
- Main Engine Starters
- Lighting
- Head Components
- Refrigerator/Freezer
- Fresh Water Pump
- Macerator
- Seawater Pump
- Livewell Pump
- CO monitors
- Ventilation
- Entertainment Centers
- Halon Controls
- Trim Tabs
- Horn
- Electronics

Batteries

The DC System derives its power from a battery in the Lazarette area, A circuit breaker near the battery switch (located fwd of the batteries on the bulkhead) connects the battery to the electrical system. The battery supplies power to the DC control on the Main Distribution Panel (MDP) in the main cabin. From this panel, power is distributed to such equipment as cabin lights, instruments, and accessories.

Entertainment Centers

The entertainment centers in the berthing areas of your boat are 12 volt DC powered. The power is supplied through the MDP, the television is AC powered, the stereo is DC powered.

Bilge Pump Systems

The Luhrs 28 Open is equipped with 3 bilge pumps and one emergency bilge pump.

Water Systems

Water System Components

The fresh and raw water systems consist of the following components:

- Dockside Water Supply
- Fresh Water Tanks and Fills
- Fresh Water Pump
- Raw Water Pump/Washdown
- Live Well Pump
- AC Cooling Pump
- Raw Water Pickup and Strainer
- Head Pick-up
- AC Pick-up and Strainer
- Generator Cooling Pick-up and Strainer
- Engine Seacocks and Strainers
- Fixtures and Valves
- Water Heater

Water Tanks

The fresh water system on the Luhrs 28 open has two water tanks and two fresh water fills located in the lazarette area on the port and starboard sides. The vent is located on each side of the hull. A water line connects the tank to the fresh water pump. The pump is located in the Lazarette area.

Sanitation Systems

Your boat has a sanitation and bilge system that is the cutting edge of sanitation. The components are designed to fit the most demanding environment. Some of the following components are listed in the Sanitation and Bilge Section.

- Head Systems
- Drains
- Pumps
- Holding Tank
- Washdowns
- Macerators
- Shower Sump

Exclusions

Owner's personal belongings.
