SPECIFICATIONS

Overview

Built by Turkish yard Mengi Yay in 2010, Serenity II pairs a timeless and classic look with a spacious design and beautiful interior. Serenity II's interior is designed by London design house H2 Design, who put together a beautiful space that truly feels like home on the water.

Walkthrough The open-plan main salon is an expansive space, highlighted by sweeping full-beam windows and featuring a range of exotic woods and custom furniture. The perfect hub for relaxing and entertaining the main salon features a large bar, lounge seating, an entertainment system and a full formal dining table for enjoying exquisite meals. Designed with convenience in mind, the spacious living room with adjacent bar ensures that you always feel at home on the water. The custom-designed furniture provides a classic, stylish feel that is subtly enhanced by the abundant natural light.

The master bedroom, with accompanying deck and genuine Finnish sauna, offers a sense of pure tranquillity and comfort that simply cannot be found anywhere on land. This is the ideal place to truly embrace the freedom that the Serenity II provides.

Provide your guests with only the very best – pampering VIP cabins offering maximum comfort on the lower level. The breathtaking beam-to-beam windows in each cabin give you the perfect way to observe the Serenity II's graceful course through the tranquil seascape.

Nestled in the Serenity II's front main deck, the Lounge is equally suited to business and pleasure. Its traditional maritime design, with a dash of innovation, makes it an ideal place to relax alongside a beautiful 180° panorama. The Lounge can also be easily converted into another VIP guest cabin.

The large flybridge has plenty of space for sunbathing, a Jacuzzi, and a dining table, while the aft deck offers ample space and a table for alfresco dining.

Key Features Stabilizers underway Sauna on board Jacuzzi on sundeck Elegant lines and classic interior Spacious exterior deck spaces
