SPECIFICATIONS

Overview

The Island Packet 350 is one of the most desirable mid-sized cruisers in the world. This Bob Johnson design is capable of circumnavigating yet also great for island hopping in the Bahamas or further down into the Caribbean. She has a keel stepped mast, modified full keel with a skeg hung rudder with the IP snow shoe support. Excellent layout with 3 comfortable berths, one head (why waste space for two like on the IP38), spacious galley, huge cockpit, lots of storage and more.

Accommodations

The Island Packet 35 is known for exceptionable liveability and very large storage areas located underneath and behind settees. There are also three separate hanging lockers providing additional storage. V-Berth is forward with a large head next aft to port joined by a spacious separate shower (unusual in a yacht of this size). The main saloon has a bulk head mounted table with seating up to six along with storage behind it and the opposite settee. The port settee pulls out to make a double berth and also functions as the seat for the large navigation station. Cushions re-upholstered in salon (not original). The galley is to starboard of the companionway,

and is one of the nicest ever designed for a yacht of this size. It features a huge ice box and double stainless steel sinks and great storage. The aft cabin is to the port of the companionway and has a hanging locker, cubbies for storage, opening ports and an opening overhead hatch. The IP35 has excellent ventilation with eleven opening ports and five opening hatches along with well designed storage. Marine AC with vents throughout.
