SPECIFICATIONS

Overview

007 is the most well-appointed, large and lavish 80 Sunseeker Predator on the market today. She is newly designed for fun on the water. The owner started his complete refit over 2 ½ years ago, which included the following: (3) New MAN 1200 HP engines, (2) New generators 25 KW per side, complete paint job of the entire vessel including the engine room. Owner then complimented the new paint job by adding new teak forward and aft, replaced all chillers and AC pumps, painted all bilges, he added 14 underwater lights then focused on the interior, repairing, replacing all soft goods, all appliances (refrigerator/freezer/ice maker). Also added new fixtures to the interior and heads and changed out all lighting to LED. All electronics and AV systems replaced including all TV's, DVD and speaker systems and the lists go on. Don't miss out on this incredible opportunity.
