SPECIFICATIONS

Overview

Originally built in the Netherlands as an ocean going tug called 'CLYDE', SEAWOLF was beautifully converted to a superyacht in Astilleros de Palma in Mallorca from 1998 to 2004 and further upgraded and converted in 2008 and 2010. Her original inspired design was done by architect JCA Hoogenbosch and, built as Clyde, he created a hard working tug in a charmingly lovely form that was the base for Bob Hoghton who enhanced and developed her into the stunning Explorer Yacht she is today.

SEAWOLF's ice strengthened hull and superior sea keeping qualities combine to produce a versatile go anywhere luxury yacht compliant with the most recent safety and technological standards.

With accommodation for 13 guests in 5 well appointed cabins, as well as the privacy of a separate Owners deck with a full beam cabin, office/study and pantry, SEAWOLF is as much at home in the Western Mediterranean as the Southern Ocean.

SEAWOLF had an extensive maintenance and refit period in 2016 including complete repainting and main engine rebuild. She is now ready to cruise anywhere in the world today! She is in ABS Class and available for commercial or private use. SEAWOLF is an extraordinary vessel that offers an extremely rare comfort of all weather integrity, handsome lines and absolute luxury.
