## HIGHLIGHTS

---

**JOURNEY** was built brand new by her owners and she is the first hull of the Ocean Alexander 72' series to have the new Evan Marshall hardtop and exterior window design. This model is unique because there is a separate entrance and a separated full beam master stateroom from the guest staterooms, giving the owners complete privacy from the other guests. She is loaded with options and every available space for storage was utilized. **JOURNEY'S** upgrades include: extended warranties on the engines until 2020, second generator, teak on the Flybridge under hard top, crew quarters with separate shower and head, boat deck awning, A/C on Flybridge, and wireless cell phone monitoring of ships systems and movement. **JOURNEY** has spent the last couple of Summers in the North East and Winters in Fort Lauderdale. She has just completed the 1000 hour service on the engines in May 2018, and she is in turn-key condition and ready for her new owners to go Summer boating. The original owners are moving up to their next Ocean Alexander and are ready to sell!

## CONSTRUCTION

### GENERAL:

- Vinylester resin with marine grade structural foam. High-density allows for high temperature resistivity and particular advantage in thermal and acoustic insulation.
- Reinforced collision bulkhead
- Fiberglass with infusion lamination manufacturing technology
- S/S hardware
- 2" elliptical 316 Stainless steel handrails & stanchions, main deck. 1-1/2" on FB. Elliptical conforms better to human grip than traditional round rails. Provides greater "grip strength" for safety and comfort (Unique OA feature)
- All exterior hardware to be S/S 316 or to manufacturer requirements
- Ocean Alexander employs various techniques to reduce sound and vibration. Focusing on providing a quiet and comfortable yachting environment through various proprietary techniques of controlling sound and noise transmission. Some of these techniques include, multiple insulation barriers including reflective materials, absorptive materials, dampening materials, air pockets and flexible and isolation mounts. Ultimately resulting in vibration/sounds levels that are industry leading and at times 1/2 to 1/10 of ISO-6954 requirements (Unique OA feature)
- Weather-tight bulkheads with further sound and temperature insulation
- Painted exterior surface with professional grade Alexseal polyurethane paint and epoxy based primers.
- Marine grade aluminum beams for floors, walls and ceiling. Provides greater rigidity and monolithic structure. Prevents movements and "creaky" sounds while underway
- Use of cross-knit directional carbon fiber in high stress area for added structural integrity and torsional strength

### HULL / BOTTOM:

- Solid fiberglass hull bottom
- White vinyl rub rail S/S insert

- Bronze through-hull fittings

## **DECK / PILOTHOUSE:**

- Chain locker in bow with hinged access
- Removable swimming ladder
- White non-skid fiberglass decks
