M/Y NEW MASTER

Baglietto / 44.45m / 2001

She was built in steel and aluminium by Italian yard Baglietto to RINA class and launched in 2001. Owned by the same family since her delivery, she has been constantly maintained and upgraded since new. Her last 5-year class was done in 2016.

Interior volumes on this yacht for sale are vast and there are ample deck spaces for entertaining and dining al fresco, particularly on the huge aft deck with comfortable rattan armchairs, cushions and occasional tables. A comfortable Asian-style interior designed by Elisabetta Ruggiero has spacious accommodation for 12 guests in six well-appointed cabins, all with en suite bathroom facilities. These comprise a master suite on the main deck, a twin cabin on the upper deck with three doubles and a twin on the lower deck. In addition, there are berths for 7 crew in five cabins.

Designed as an ocean-going ship by Studio Ruggiero, she is equipped with state-of-the-art navigation equipment which is commercial grade and carefully built for long ocean passages. Twin 2,447hp Deutz engines give her a cruising speed of 16 knots and a range of 4,440 nautical miles at 12 knots. Furthermore, she has been retro fitted with zero speed stabilizers.

Key features:

- One Owner and Privately Used since New
- Exceptional interior volume
- Commercial-grade bridge with state of the art navigation equipment
- High-end entertainment system with Kaleidescape
- VAT PAID
- Zero Speed Stabilizers

COMMENTS

Hull and main deck built of Fe 52 - AH 36 Steel

Superstructure and cofferdams built in Marine-grade AlMg 4,5 Mn (5083) aluminium for flat surfaces and

AlMg Si (6082) for profiled surfaces.

Double-bottomed tanks

Stainless steel appendages in AISI 316L grade

Awl-Grip paint system - Hull and superstructure repainted in 2011

Hull fully sandblasted in 2014 and Boero Self-polishing Anti-Foul applied

14mm thick Teak decks laid on a 12mm Okume maritime substrate. Complete Caulking replaced in 2011

REFIT SUMMARY

2005/06

Full hull and superstructure repaint with Awl-Grip

Addition of a saltwater cooling system for the main VT Naiad stabilizer unit in order to allow for unlimited

continued usage on long passage

2006/07

Modification of the fueling/discharge stations in order to allow for fast transfer

2008/09

Aft section Awl-Grip repaint the hatch, the stern and the aft hull sides

2010/11

Full hull and superstructure repaint with Awl-Grip

New caulking on all teak decks (Total 5,020 meters)

Installation of new teak decking and substrate on swim platform and in garage Full service of steering

unit and fine adjustment

2016

RINA 5 year Special Survey completed
