## Overview

---

Powered by Caterpillar C32A (1825hp) engines with warranties until 2019, her beautiful "Haze Grey" hull sides were painted in 2016. Also new in 2016, teak cockpit and covering boards were replaced adding to the AirTeak toe rail and transom package look, which gives her a customized look and head - turner wherever she goes. "My Michelle" offers the desirable 4 Stateroom 3 head layout, Extra fuel option for a total of 1920 gallons, a refreshed custom satin teak interior, custom stone galley countertops, high gloss horizontal tops and accents.

Other options that make this Viking 60 unique include, a loaded Palm Beach 10' gap tuna tower, Release Marine teak helm chairs, fighting chair and helm pod package, top of the line Furuno and Garmin electronics, Bow-thruster, tournament sportfish options, such as, (4) Miya Epoch teaser reel box, Stingray live well pumps, 3KW flush transducer, 43' Rupp "Bigg Rigg" outriggers and more...The current Owner purchased this Viking 60 from it's original Owner in 2013, at the time a contracted CAT specialist, Marine Diesel Analysts Inc. conducted the survey @ 3900hrs. The engines were found great with very low fuel consumption at 25,000 gallons per engine and an overall load factor under 20%. These engines are designed to consume 200,000 gls. or approximately 8,500 hrs. before a major overhaul. Scheduling preventive maintenance with the assistance of the fuel consumption is the preferred method over engine hours. As stated by Caterpillar the load factor for pleasure craft engines may be "up to 30%". Expected engine life is predicted by the average power that is demanded the average power that is demanded is based on the fuel consumption over a period of time. Conclusion was that the engines were treated correctly, great shape, with no negative history and could be treated as having half the time. Based on the above average conditions of these engines the current Owner was able to extend the Caterpillar warranties 2500hrs or until 5/2019. In almost 5 years since the purchase only 800+/- hrs. have been added.

 SAT TV dome antenna mount on fiberglass top SAT phone dome molded on fiberglass hard top  
 Bridge rail 3-sided double aft, leg to leg, to outer legs  
 (8) Teardrop style polished rod holders welded to aft bridge rail  
 (6) Teardrop style rod holders welded to aft legs in cockpit  
 CAT electronic controls and steering (2) MIYA EPOCH SUPER US9 24V electric teaser reels (2) MIYA EPOCH 24V teaser reels (total of 4 teaser reels in custom recessed box)  
 43' 3-spreader Rupp "Big Rigg" outriggers with bridge release and solid aft bar  
 Rigger locks Rupp center rigger Freshwater wash-down  
 3-sided track-to-track EZ2CY enclosure Powder coated aluminum flangless track  
 Air vents on (3) forward panels Molded, LED port and starboard navigation lights  
 Molded stern light Larger electric drop down instrument box  
 Underside of hardtop painted lighter shade of grey with texture  
 Underside of platform and sunshade painted lighter shade of grey with texture  
 (2) I2 Systems blue LED lights with fiberglass recess in sunshade top  
 (4) I2 Systems blue LED lights under platform with fiberglass recess  
 (2) round Aetna digital multi-function tachs mounted on control box

## Electrical System

24V DC ship's service throughout  
 110V outlet in engine room on aft bulkhead  
 Anchor light/navigation lights Batteries, (2) independent 24V banks mounted in fiberglass storage boxes  
 (2) Battery chargers with thermal cutoff and switching system for complete integration  
 Battery distribution panel with battery cutoff and charging system breakers  
 Battery parallel system for main engines and generator start Bonded electrical system with ground plate  
 Color-coded, labeled and numbered wiring system with corresponding drawings  
 Dimmers, AC interior lighting throughout excluding the

companionway  
 Emergency DC crossover charging system-allowing for battery charging from either charger  
 Engine room recessed lights, AC and DC with switch at engine room entrance  
 Glendinning cablemaster (2) with 3 wire grounded chords  
 Individual switching for shore (1), shore (2) or generator supply located at main salon panel  
 Instrument panel lights for flybridge and main electric panel  
 Lighting, overhead Xenon lights recessed in ceiling and rope type décor lights concealed by upholstered valances, 120V AC and 24V DC  
 Master electrical control provided via Moritz Octoplex Power Distribution System  
 Receptacles, 120V duplex with GFCI throughout  
 SSB radio ground strap laminated deck house and hull  
 Voltage stabilizer isolation transformers  
 Deck Equipment  
 Freshwater washdown at bow inside anchor locker  
 Lewmar windlass with SS anchor fairlead with SS 60lbs. Delta anchor (2013)  
 Stainless steel toe rail chafe guard plate at bow  
 No bow pulpit

## Hull and Bilge

---

Additional fuel tank forward for a total of 3 tanks 1920 gl.  
 Underwater Exhaust  
 Fiberglass side thru hulls  
 Custom exhaust vents in hull-sides  
 5 Blade Veem Interceptor Props (New 2013)  
 Prop pockets to reduce draft  
 Trim tab covers  
 Cleanout bilge pump in lowest point in fwd bilge with hose attachment  
 Tiller arm & all brass parts in lazarette painted with Awlgrip  
 Float switches for bilge pumps  
 Fiberglass tank vents IPO metal  
 Magnetic switches installed for all bilge lights  
 Anchor locker painted with Awlgrip  
 Forward bilge painted with Awlgrip  
 Hull Color- Custom Viking Haze Grey  
 Boot stripe Viking blue- 2 1/2" wide  
 Silver 1/2" accent stripe 1/2" above boot stripe
