- All A/V equipment powered through inverter

Tenders

- Williams 445 Turbojet
- Seadoo 300 GTX 3-seater
- 2 x Seabob 5

Manufacturer's Description

The Predator 130 makes a bold statement, not just in front of onlookers but also in serious long-distance passage making. This is some achievement, integrating the latest in design and construction methodologies with new systems technologies to meet such exacting requirements. At this high end of the scale, 145000kg, 8000 PS, demands are greater but the delivery is enhanced with extensive attenuation practices in place. This applies equally when the boat is at rest with generators and other machinery running, in that all pumps and motors are sited away from guest accommodation areas. Good for quiet, and also for simple, non-intrusive maintenance.

Exclusions

Owner's personal belongings.
