# DETAILED INFORMATION

---

## Manufacturer Provided Description

---

The great Cranchi tradition has, in the Master Cruiser, its best characterization element, offering a lot of space to the people on board, along with everything else they might need. Its difficult to think of more complete "Family styled" models: here, everything has been created around the idea of comfort, to make life on board ever more pleasant. A design based around sober, elegant lines, yet taking away nothing from the internal dimensions, where the level of habitability is remarkable. Boats designed to take you through your cruises, whether they be brief or longer, always offering you an unbeatable level of safety and seaworthiness. The "greatness" of these models is also clear from the details, the many useful and functional ideas: from the countless lockers in the keel, where you can store food, clothes or other objects, to the many pockets and object-holders, to the practical wet-bars in the cockpit, with their sink with mixer tap and fridge (on request).

## Additional Description 1
